2. Corporate Update

CNW 2018 (4) 2

Sue Bowers introduced the Corporate Update including an overview of HLF's business transformation work, *Shaping our Future Business*. The work would allow HLF to be more streamlined and consistent in delivering the Strategic Funding Framework (SFF) and in support of the sector, taking on recommendations from the tailored review. The work would benefit HLF's customers through greater partnership working, better engagement, and better links to data and insight whilst retaining local teams.

An independent governance review would take place in early 2019. Three interim English committees would be created to operate from April 2019 for a 12 month period. All English members would be invited to submit an expression of interest to be a part of these committees. The country committees would continue to exist in the same format.

The Chair thanked Sue Bowers for her presentation and Nathan Lee for his role in leading the North West team through the changes.

The Committee discussed the Greater Manchester's Culture Strategy and made a number of comments:

- Members were very disappointed with the draft strategy in terms of heritage, noting the lack of mention of some of Greater Manchester's great assets, including museums.
- The document was not particularly reflective of Greater Manchester and members felt that it could be used to describe any other region.
- Manchester's cultural leaders should engage with the strategy to ensure the document was reflective of the sector.

An update was provided on projects in the North West. The micro grants pilot in Barrow had been very successful and was now awaiting evaluation. A number of larger grants had been awarded based on the success of these micro grants.
