Register for our Heritage Endowments application

HLF will be holding two three-hour Heritage Endowments application workshops in London on 18 October and in Newcastle on 20 October.

These events are designed to provide some additional support and guidance in preparing an application to the Heritage Endowments programme.

The events will include:

- contributions from the programme team around the learning from previous rounds of endowments projects
- what helped make projects successful and the common challenges of running endowments fundraising campaigns
- a further session on the specifics of the fundraising strategy and plan, and what is considered in assessment
- hear from a past recipient under the Catalyst Endowments programme, who will talk about their experiences of running an endowments campaign and what helped them succeed

How to attend

You will need to register for the programme online and submit a project enquiry form by 13 October 2016.

Only organisations that have registered for the programme will be able to attend these workshops.

To register, please follow the link for your preferred location (London or Newcastle). There are 30 spaces available at each workshop.

- London (18 October)
- Newcastle (20 October)
