

Transparency

As a public-facing body, we are committed to making information readily available and easy to understand.

We make all our [annual reports and accounts](#) from the past five years available on our website. Elsewhere in this section, you can find out more about what we do, how we operate, what we spend and our workforce.

Policy and strategy

- Our [Framework Agreement with DCMS](#) sets out in one place the governance, oversight and reporting requirements between ourselves and DCMS.
- Governments across the UK provide us with [policy directions](#) to steer our work.
- Our [Heritage 2033 delivery plan: 2023–2026](#) sets out how much we'll invest and how we'll deliver the aims of our 10-year strategy, [Heritage 2033](#), over the first three years.

Our awards

- Every two years we are required to submit a self-assessment against the [Government Functional Standard for Grants Management](#). In 2024 The Cabinet Office gave our submission an overall score of 93.2%, placing us in the 'Best' category rating for grant management.
- National Lottery legislation gives us the power to [solicit applications](#) for the distribution of National Lottery monies. When a decision to solicit an application is made, we publish the details on our website.
- Some of our awards are considered subsidies. We publish details of these on our [subsidy control page](#).

Procurement, tenders and transactions

- In accordance with Cabinet Office guidance, we publish [information on procurement](#). All invitations to tender can be found on [GOV.UK contracts finder](#) or [Find a tender service](#), dependent on the tender amount.
- In accordance with Cabinet Office guidance, we also publish [transactions over £500](#).

Registers of Interest

- All members of our Board, committees, and Executive team make their interests public through our [Register of Interests – Board and committees](#) and [Register of Interests – Executive team](#).

Equality

- Our commitment to diversity and inclusion is based on the [Public Sector Equality Duty for England, Scotland and Wales](#) and [Equality Scheme for Northern Ireland](#).

Our people

- We post all of our recent details of staff structure, salaries and expenses in our [annual reports](#).
- We also publish information on the [diversity of our workforce](#), [the gender pay gap](#) and [trade union facility time](#).

Freedom of Information

- We publish a [record of the Freedom of Information requests](#) we have received.
- The Freedom of Information Act requires us to produce a [Publication Scheme](#) which describes the information we routinely publish, where you can find it and whether we charge for it. It is not a list of our publications: it describes the kinds of information we publish.

If there is specific information not covered here that you would like to view or access you can make a [Freedom of Information request](#).

Policy directions

10/02/2021

10/02/2021

[See all updates](#)

Governments across the UK provide us with policy directions to steer our work – they are ‘matters to be considered’.

Attachment	Size
UK government policy directions, plus additional for England	140.46 KB
Policy directions in relation to Wales	61.05 KB
Policy directions in relation to Scotland	103.94 KB

The UK directions apply to all funding made by The National Lottery Heritage Fund. We report on our progress against the policy directions annually, via our [Annual Report and Accounts](#) which is published on the UK government website. The policy directions apply to National Lottery funds and not grant in aid. The National Heritage Act dictates what we can and cannot do with grant in aid.

The policy directions for England are set by the Secretary of State for the Department for Culture, Media and Sport (DCMS). Devolved directions additionally apply. Ministers in the devolved nations use their powers to give additional directions to The National Lottery Heritage Fund. There are policy directions for Scotland and Wales. You can view and download all policy directions from this page.

The Northern Ireland policy directions have been absent for several years, due to the absence of the Northern Ireland Executive and Northern Ireland Assembly from 2017 to 2020. This was further delayed by the coronavirus (COVID-19) pandemic. Draft Northern Ireland policy directions went out to public consultation in February 2022 which closed in April. The National Lottery Heritage Fund is considering the responses before going back to the Department for Communities in September, where it will then need the Northern Ireland Executive's approval. It is uncertain when exactly this might happen given the Northern Ireland Executive is not functioning at present.

Framework Agreement with DCMS

31/08/2017

31/08/2017

[See all updates](#)

In May 2024 we finalised our new Framework Agreement with the Department for Culture, Media and Sport (DCMS).

The National Heritage Memorial Fund framework document 2024–2027 is now available on [GOV.UK's DCMS framework documents](#).

This agreement replaces the Management Agreement which we previously had with DCMS and is part of a cross-government programme to update the agreements governing the relationships between arm's length bodies (ALBs) and their parent departments. The Cabinet Office now requires all ALBs to have a Framework Agreement between the parent department and ALBs to govern the relationship between the ALB, the sponsor department and the rest of government. These Framework Agreements are largely standardised across ALBs.

The Agreement sets out in one place the governance, oversight and reporting requirements

between ourselves and DCMS. It aims to assure and frame our relationship with DCMS but does not change how we work with or engage with each other in day-to-day terms. It does not change our policy directions or supersede primary legislation but is a useful reminder of the regular reporting we do for DCMS and how we work with them across the organisation.

How we'll use artificial intelligence

19/06/2025

19/06/2025

[See all updates](#)

This page sets out our approach to artificial intelligence (AI). It's not intended to give detailed guidance about the application of AI, but provide a basis for further policies and advice.

Definition

There are many definitions of AI. We use it to refer to computer-driven automation systems that perform tasks which often involve prediction or decision-making. This includes technologies such as image and text recognition, large language models (LLMs) and the capability to generate text, imagery, audio and video.

Our starting point for engaging with AI

We will always act lawfully, ethically and responsibly in our use of AI. As an arm's length body of the UK Government, we look first and foremost to their guidance including the ten principles set out in the [Generative AI framework for HM Government](#). We commit to following these principles as we experiment with using AI to support the delivery of our strategy, [Heritage 2033](#). As the largest funder for the UK's heritage, entrusted with important decisions affecting many organisations and people, we have a responsibility to act with integrity and transparency in our use of AI.

In addition, as an employer and as a data controller, processor and publisher of grant data, we must think carefully about when and how we use new, powerful technologies. We believe that only by combining AI with human curiosity, intuition and problem-solving skills will we realise its potential benefits.

Our commitment to responsible AI, in line with our values

Ambitious

- We'll be curious, imaginative and creative about what AI can do to help us deliver the ambitions set out in [Heritage 2033](#).
- We'll keep learning from others who are leading the way on AI to adapt how we work and to stretch our goals.

- We'll make sure our staff are supported and empowered to deal with changes in AI technology, including with appropriate training.

Inclusive

- Our use of AI will be accompanied by effective and proportionate human oversight, which considers the different perspectives and lived experiences of our staff and stakeholders.
- Where we choose to use AI, we'll do so in a way that is ethical, secure, robust and safe for everyone. We'll look for opportunities to use AI to increase inclusion and accessibility. And we'll assess the accuracy, reliability and consistency of AI tools we use and encounter.
- We'll be conscious that biases and inequalities exist in the development or use of AI tools and we'll be active in identifying, communicating and addressing these.

Collaborative

- We'll work with partners and peers to share expertise and experience to benefit customers and staff.
- We expect our partners and suppliers to take these values and protections against potential harms of AI technologies as seriously as we do.
- We'll consider the rights of all our stakeholders when using AI including applicants, funding partners, staff and suppliers.

Trusted

- We'll ensure our use of AI complies with data protection legislation and respects the rights of individuals. We'll work with AI tools only where we're confident in their efficacy and accuracy and our ability to manage any risks they present.
- We'll be transparent about where we've knowingly used AI tools, indicating where possible when and how content or data has been machine generated. We expect our stakeholders to do the same.
- We'll seek to balance the negative environmental impact of using AI tools against their benefits.

Soliciting applications for National Lottery funds

[See all updates](#)

National Lottery legislation gives The National Lottery Heritage Fund power to solicit applications for the distribution of National Lottery monies.

Page last updated: 7 June 2024

We use our solicitation power only where it is clearly the most effective way of achieving one of our strategic objectives.

When soliciting an application, we ensure that:

- Anyone involved in developing the case for the solicitation, preparing the criteria and communicating with the organisation being solicited is not involved in assessing the solicited application nor deciding whether or not the solicited application has been successful.
- The person(s) who are making a decision on a solicited application know:
 - That the application has been solicited.
 - By whom it was solicited.
 - What role (if any) the person who solicited the application has had in assessing it.
- It makes clear to the solicited applicant(s) that:
 - Solicited applications will be assessed on their merits against the pre-determined criteria. They may fail if they do not meet the criteria and expected quality standards set out on matters such as value for money and risk.
 - They will not be given preferential treatment.
- All applications, solicited or otherwise, are assessed on their individual merits.

When a decision to solicit an application is made, the following will be published on our website:

- A description of the project and grant amount.
- The strategic objective that the solicitation seeks to address.
- The reasons for adopting the solicitation approach.
- The criteria and expected quality standard against which the solicited application will be assessed.

Subsidy control

04/07/2022

04/07/2022

[See all updates](#)

We are required under the Subsidy Control Act 2022's transparency requirements to publish details concerning individual awards which may be considered to be subsidies.

We are a public body and the largest funder for the UK's heritage.

As The National Lottery Heritage Fund, we distribute National Lottery grants from £10,000 to £10million and over, funding projects that sustain and transform the UK's heritage.

As the Heritage Fund, we distribute non-Lottery funding, including grant in aid/government funding and loans, to heritage organisations.

The Subsidy Control Act 2022

Since the UK left the European Union on 1 January 2021, the UK government has enacted domestic legislation to replace EU law: **the Subsidy Control Act 2022 ('the Act')**.

The Act aims to control the provision of subsidies – it prevents unfair competition or effects on trade and investment. This might happen if an organisation receives funding from state resources (which includes our funding, as our funds are public money) while another organisation can only use their own private funding.

You should familiarise yourself with the requirements of the new subsidy control regime when considering [applying to us](#).

The Act has been fully in force from 4 January 2023. The Department for Business, Energy and Industrial Strategy (BEIS), has issued [guidance on the operation of the Act](#). This guidance helps public authorities, such as the Heritage Fund, to award subsidies in a way which minimises any negative effects on competition and investment, as well as promoting the effective and efficient use of public money. These subsidies are permitted provided they satisfy the criteria set out in the Act.

Subsides above a certain financial threshold (currently £100,000) must be published on both our own website, and on [a database held by BEIS](#).

Smaller grants may be outside the scope of the Act if they are not considered to be a subsidy. For example because they are unlikely to have an impact on trade or investment.

What is a subsidy?

There are four key characteristics which must all be present for funding to be classed as a subsidy:

1. a financial contribution
2. given by a public authority from public funds
3. given to an organisation giving them an economic advantage that is not available on market terms
4. affects or is capable of affecting competition or investment within the UK, or trade or investment between the UK and a country or territory outside of the UK

If our funding meets **all four key characteristics**, then it will be a subsidy. For a subsidy to be permitted it has to comply with [seven common principles as set out on the UK government website](#).

EU State Aid Law

The previous EU state aid law will still apply to some grants awarded before 31 December 2020, and there may be additional considerations to take into account in Northern Ireland.

UK state aid guidance can be found on [the UK government website](#).

Subsidy control information in relation to individual awards, 2025

Subsidy control information in relation to grant to Chatsworth House Trust

Project: Celebrating the Cascade at Chatsworth

Date of grant: 7 October 2025

Reference: NL-21-00236

Grantee: Chatsworth House Trust

Grant expiry date: 28 February 2029

Category of beneficiary: Large

Subsidy amount: £4,995,173

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, contributing to communities and economies. It supports nature recovery, environmental sustainability and greater inclusion, diversity, access and participation in heritage, and strengthens heritage to be adaptive and financially resilient. This is all made possible thanks to National Lottery players.??

Purpose of the subsidy:?This subsidy will be used towards the restoration of the 18th-century Cascade at Chatsworth House, Derbyshire. Chatsworth is the stately home of the Dukes of Devonshire, located between Bakewell and Chesterfield in the valley of the River Derwent within the Peak District National Park.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.??

Basis for subsidy calculation:?The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.???

Project summary: There is physical risk to the Cascade structure, with leakage of water below and behind the stone structure, particularly associated with the close proximity of Paxton's Tunnel, combined with sustained steady erosion below the stone paving and behind the stone steps. Without action to address these issues there is significant risk to the historic fabric.

The area below and surrounding the Cascade is also threatened by the collapsing tunnel under the Cascade, with water washing through the structure which has eroded mortar joints, creating voids and sink holes in the process. For public safety and to prevent further damage to the structure, the Cascade has been turned off with public access restricted since 2023.

This unique Grade I listed structure, which is at serious risk due to leaking water and deteriorating stonework, was once described by Pevsner as "a delight to the ear as well as the eye" and will be restored and fully operational once again. Cascade House and the associated sculptures will be

restored and the structural issues in the tunnel below the Cascade will be addressed.

The interpretation and activity plans to broaden Chatsworth's audiences, alongside subsidised tickets to under-served groups, will widen access and inclusion to include people with mental health issues and those with visible and hidden disabilities. Programmes will integrate stories from engineering, to the value of water in the environment, to the history of landscape design. Taking interpretation outside of the pay barrier into the freely accessible parkland, woods and online will create a meaningful experience for new audiences who would not normally see Chatsworth as a place for them.

Schools within the Minerva Learning Trust, comprising four schools in Chesterfield and Derbyshire, have supported the co-creation of the formal learning and engagement offer. This will focus on the garden and landscape using STEAM subjects and wellbeing development based on the themes of water, engineering, built heritage and the environment.

Derbyshire Mind, delivering mental health advocacy and support, has provided valuable input to help identify calm areas of the gardens and advised on the planned wellbeing events and sessions. Pilot activities have demonstrated that access to nature has had a positive impact on the mental health and wellbeing of participants.

A targeted programme of community engagement, co-produced by the local community, will engage diverse audiences including young people, who will be involved in the oral history programme to be used in the interpretation and preserved as a digital archive.

Subsidy control information in relation to grant to West Midlands Historic Buildings Trust

Project: Heritage Enterprise: A Homely Future for St Michael's Place, Warwick

Date of grant: 2 October 2025

Reference: NL-22-00125

Grantee: West Midlands Historic Buildings Trust

Grant expiry date: 31 December 2028

Category of beneficiary: Small and medium-sized enterprises (SME)

Subsidy amount: £2,964,199

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. Our Heritage Enterprise grants help projects achieve economic growth by investing in heritage. They support commercial organisations working in partnership with community organisations to help them rescue neglected historic buildings and sites and return

them to a viable productive use.

The programme is designed to bridge the funding gap that prevents a historic asset in need of repair from being returned to a beneficial and commercial use. The case for grant funding is based on the conservation deficit, where the existing value of a heritage asset plus the cost of bringing it back into use is greater than the value of the asset after development has been completed.

The programme conserves and values heritage for now and the future, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is all made possible thanks to National Lottery players.

Purpose of the subsidy: The St Michael's Place site is of regional and national heritage significance and the Master's House is at high risk of collapse without urgent repair. The subsidy will be used towards the conservation, renovation and sustainable re-use of the Grade II* listed Master's House and St Michael's Chapel, located on the site of St Michael's Place in Saltisford, Warwick, into two affordable rentable homes. Once restored, the buildings will be leased to a social housing provider to be managed in the longer term.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.??

Basis for subsidy calculation:?The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.???

Project summary: Works to Master's House will be a comprehensive structural repair of the building to high conservation standards including full structural timber repair, re-roofing, new windows, insulation, mechanical and electrical (M&E) and drainage. A large portion of the timber frame will need to be dismantled for assessment and repair before being reinstated. A full fit-out for a two-bed family house is included. The chapel will be fully repaired and refurbished and converted into a one-bed dwelling.

General soft landscaping will be undertaken including wildflower meadow borders and native tree and shrub planting, providing enhanced wildlife habitat. An electric charging point will be installed, as will bike storage and a limited number of parking spaces to promote the use of public transport and walking.

Interpretation will be integrated into the landscaping. A main feature will be a physic garden facing onto the main road and interpretation panels on fencing along the pavement, explaining the site's history and medieval use of medicinal plants. Public access to the buildings is limited so there is a strong digital component – neighbouring town, Leamington Spa, has established a reputation as a centre for digital games development and the project aims to tap into this local skills base to develop innovative digital interpretation.

Subsidy control information in relation to grant to Bailiffgate Museum and Gallery

Project: Heritage, Creativity & Community in the Heart of Alnwick

Date of grant: 22 September 2025

Reference: NL-23-00134

Grantee: Bailiffgate Museum and Gallery

Grant expiry date: 31 December 2030

Category of beneficiary: Small and medium-sized enterprises (SME)

Subsidy amount: £4,504,371

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, contributing to communities and economies. It supports nature recovery, environmental sustainability and greater inclusion, diversity, access and participation in heritage, and strengthens heritage to be adaptive and financially resilient. This is all made possible thanks to National Lottery players.??

Purpose of the subsidy:?The subsidy will help to save Northumberland Hall, a significant heritage asset in Alnwick. It will be used to restore, refurbish and bring back into productive use an unused, deteriorating Grade I listed building that is core to Alnwick's social and trading history. Northumberland Hall will become a vibrant and visible cultural attraction in the heart of Alnwick's historic marketplace, securing the sustainable long-term future of the building.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.??

Basis for subsidy calculation:?The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.???

Project summary: Changes to the interior will improve and preserve the overall condition of the building, creating an accessible and welcoming space for local residents and visitors. Exterior works will significantly improve the quality of the built environment in the town centre, enhancing wider investments that are being made in public realm, wayfinding and event infrastructure.

Building surveys undertaken during the development phase highlighted that the building is in worse condition than previously thought and deteriorating at a rapid rate. There is significant water damage in the main hall due to the poor condition of the roof and guttering; parts of the decorative ceiling plasterwork have become sodden and are at risk of complete loss; and there is fungal growth in the walls due to overheating, poor ventilation and the low quality of previous remedial

works.

Spoken word, oral histories, expressive artworks, music and films will create a space of changing stories and memories. Objects from the collection will become portals to unlock stories behind their existence, allowing visitors to get closer than ever before to past and present personalities of the area.

The re-use and repurposing of the Grade I listed Northumberland Hall will deliver environmental benefits and exemplify how historic buildings can be brought back into use in a way that mitigates environmental impact.

Subsidy control information in relation to grant to St Conan's Heritage Trust SCIO

Project: New initiatives in conserving and inclusively sharing the heritage of St Conan's Kirk, widening our audiences and supporting our community.

Date of grant: 30 June 2025

Grant expiry date: 30 June 2027

Reference: NL-22-00048

Grantee: St Conan's Heritage Trust SCIO

Category of beneficiary: Small?

Subsidy amount: £1,039,773

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access and participation in heritage and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy:?This project seeks to save the heritage of the picturesque A-listed St Conan's Kirk through the delivery of a programme of necessary repair works and upgrades, ensuring it remains a focal point of community activity in Lochawe and north Argyll.

Eligibility for the subsidy:?The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants have to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: Urgent and necessary conservation works will be carried out to preserve the historic fabric of the building, including repairs to the roofs and high level stonework of the Daniel Tower and Octagonal Tower. Unused spaces will be brought back into use, including the crypt which will become a small exhibition and performance space, and the Bruce Chapel basement which will provide a multi-function education room. Access improvements will be made and visitor facilities will be introduced, with the provision of new toilets, including an accessible WC in the Octagonal Tower. The car park will also be enlarged and improved for visitors to the site.

The activity plan has been sensitively developed to suit the needs of the community and visitors. Engagement will include an expansion of community events and festivals including the popular annual Christmas Tree Festival. Activities will be delivered which aim to support the wellbeing of local people. These include gardening group activities, a coffee and cake club, creative workshops and community singing. Additional activities and visits will also be carried out for local school groups.

Traditional skills talks and workshops will be delivered for young people focusing on lead dressing, stone carving and ironwork. A children's exhibition will be created and displayed in the crypt area, providing hands on engagement activities for an audience which is not currently catered for as part of the visitor experience. Proposals are proportionate and sensitive to the surroundings.

Subsidy control information in relation to grant to Royal High School Preservation Trust

Project: Awakening Edinburgh's Architectural Masterpiece – A New Cultural and Environmental Destination

Date of grant: 24 June 2025

Reference: HZ-24-00022

Grantee: Royal High School Preservation Trust

Grant expiry date: 1 March 2030

Category of beneficiary: Small and medium-sized enterprises (SME)

Subsidy amount: £4,973,579

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for

now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy: The project will finally halt the decline of one of the most important neoclassical buildings in Scotland. Taking a conservation-led approach, it will reinstate the building's most important architectural features and implement conservation and maintenance plans. In addition, the building and surrounding grounds will be adapted for contemporary, cultural use, creating a viable and sustainable future for the site, which has been elusive for decades.

The project will enable ongoing public access to the building for the first time since 1968, prior to which it was only accessible to pupils and staff. The building and grounds will be free to enter and local communities will be encouraged to use the building for their own purposes. Planned activities focus on developing ownership of the site and improving skills, employment and wellbeing.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.??

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.???

Project summary: The project, which has a four-and-a-half-year delivery phase, will take place at the former Royal High School on Calton Hill, Edinburgh. It will restore the category A listed building and secure its long-term future by creating a new use as a new cultural centre for local residents and visitors.

In terms of capital building works, the original central assembly hall and two adjacent classrooms will be sensitively restored to their original Hamilton design and adapted for use as public performance spaces which can function simultaneously, with a total combined capacity of 500 people. Meanwhile, in order to enable circulation around the building, the existing lower ground floor level will be extended by excavation to create space for public facilities and plant. Physical access will be supported through the installation of four new lifts. The west wing will be developed as a revenue-generating hospitality and cultural events space at ground floor level, and below, a café with external access to a courtyard. The east wing will provide musician rehearsal and recording rooms, and a base of operations. The west pavilion will provide a visitor welcome and interpretation centre, and the east pavilion will provide a learning and engagement studio.

The capital project is currently at RIBA Stage 3+, with planning permission in place, the majority of funding secured and a scheduled main contract start date of summer 2025. The contractor will undertake construction work over a 18-month period to the walls, roof, windows, doors, finishes, fixtures and fittings and services, and fit the building out as per the design specifications.

In terms of the wider landscaping works, the unused grounds in this 11,750m² site will be levelled to make the building accessible externally. They will also be transformed into freely accessible public gardens according to designs by the English landscape architect, Tom Stuart-Smith, and

stocked with carefully selected native plant and tree species. The gardens will serve as a venue for cultural events.

The heritage will be interpreted via physical and digital exhibits throughout the building and wider landscape but primarily in the proposed reception/welcome facility housed within the west pavilion. Themes include architecture, landscape & setting, Scotland's music making and Scotland innovators. Proposed media include light boxes and video walls for the new foyer, story-led café table displays and playful interactives in the garden. The project aims to engage a minimum of 16,500 people, in person and digitally, over the four years of the activity plan, including over two-and-a-half years of operation. Key target audiences are residents, visitors and specialist groups, including local deprived communities in Dumbiedykes and Abbeyhill.

Subsidy control information in relation to grant to The Soil Association Land Trust

Project: Restoring and Celebrating the Heritage of Woodoaks Farm

Date of grant: 18 June 2025

Reference: NL-22-00149

Grantee: The Soil Association Land Trust

Grant expiry date: 31 March 2030

Category of beneficiary: Small and medium-sized enterprises (SME)

Subsidy amount: £1,982,128

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy: The project will create a sustainable new use for the Grade II listed Black Barn, share the story of 1,000 years of farming heritage and increase connection with nature through volunteering, education and events.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.??

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.???

Project summary: Over four years, this project will develop existing farm buildings into a new education and community hub, while a wide-ranging activity programme will deliver landscape and habitat improvements. Planned activities and outputs include:

- The restoration of National Priority Habitats, including woodlands, hedgerows (1km to be planted), scrub, grasslands and ponds. Habitats will be joined up across the farm to form new wildlife corridors, while a programme of wildlife and habitat monitoring will identify lost or endangered species to inform future land management. A new community growing area and community orchard will increase understanding of traditional farming practices and connection to nature.
- The Black Barn will be weatherproofed, while its ancillary buildings will be re-purposed to provide year-round visitor facilities. The plans include a new-build 60-person learning space to replace the dilapidated concrete cart shed, to include a meeting room, a wheelchair friendly kitchen and accessible toilets.
- The new structured education programme will target early years to key stage 5 in heritage, farming and nature, while a new outreach programme will develop loan boxes and digital resources to make heritage more accessible.?
- The activity plan has been expanded to improve understanding of Woodoaks' heritage. Supported by partners the Three Rivers Museum and the neighbouring Chiltern Open Air Museum, participants will explore farm records, objects and collect oral histories to be used as part of the new site-wide interpretation plan. Two new accessible walks will be created, with way markers, information boards and audio/rubbing posts dispersed along the route.

Subsidy control information in relation to grant to Paxton Trust

Project: Sustainable Future

Date of grant: 27 March 2025

Reference: HA-24-00618

Grantee: Paxton Trust

Grant expiry date: 31 October 2025

Category of beneficiary: Small

Subsidy amount: £250,000

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access and participation in heritage and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy: The funding will support the Paxton Trust's long-term sustainability and their ongoing work to maintain the A-listed Paxton House, located on the River Tweed in the Scottish Borders. The project will have a long-term public benefit by ensuring the financial sustainability of Paxton Trust and long-term access to, and maintenance of, Paxton House and the surrounding estate. The addition to their accommodation offer will widen their audience, increasing visitors to the area. Engagement with the natural landscape will increase, providing new opportunities for programming.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: A seven-pod glamping village will be installed within the estate, along with a nature pond and wildflower habitat. The project seeks to increase engagement with the estate's natural heritage, with volunteer opportunities in gardening and landscaping, and the development of a new trail and monthly tours in the summer season. The project will increase capacity for overnight stays within the Paxton grounds, a vital source of income for the Trust. Paxton Trust also works with 45 active volunteers who support historic research, visitor development and management of the grounds. The Trust hosts school groups for lessons focused on art, history and politics.

Subsidy control information in relation to grant to Creative Land Trust

Project: Creating Futures at Alice Billing House

Date of grant: 17 March 2025

Reference: NL-22-00157

Grantee: Creative Land Trust

Grant expiry date: 31 March 2029

Category of beneficiary: Small

Subsidy amount: £2,885,867

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access and participation in heritage and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy: A derelict 1960s courtyard building will be demolished and replaced with a new community pavilion from which the skills-based activity and education programme will run. It will allow for level access into both the South and North Blocks and will be flexibly modelled to allow for test spaces relating to café cuisine, retail and exhibitions. The project follows successful completion of phase one, which restored the roof of the North Block and the interior of the South Block, successfully launching the latter as fully tenanted studio space in early 2024.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The project represents phase two of this conservation-led restoration of the exterior and interior of the Grade II listed North Block. It will create 12 studios for up to 42 creatives, alongside restoration of the exterior and roof of the South Block, a new entrance into the courtyard and enhancement of the yard garden. Capital works are accompanied by an activity plan which sets out public engagement through art-led historic interpretation and an inclusive heritage-led activity and outreach programme, drawing on themes such as the original West Ham Fire Brigade and Alice Billing's role in society. Grow Studios, who already manage the South Block, will deliver a heritage arts and community engagement programme combining a programme of workshops, commissions, residencies, creative labs, tours, open call and open studios, both in the North Block and in the local vicinity.

Subsidy control information in relation to grant to Dundee Industrial Heritage SCIO

Project: Discovery Point Transformed – a new centre for Antarctic heritage, environment, and learning

Date of grant: 11 March 2025

Reference: OL-20-05900

Grantee: Dundee Industrial Heritage SCIO

Grant expiry date: 31 March 2029

Category of beneficiary: Small

Subsidy amount: £3,551,932

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access and participation in heritage and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy: Over three-and-a-half years, this project will preserve an at-risk, internationally significant vessel. It will make better use of the associated Recognised Collection by retelling and revitalising exhibitions. Alongside this will be a suite of works to the Discovery Point building which are essential to helping Dundee Heritage Trust become more financially and environmentally sustainable.

The project will undertake the next phase of repair works to the RRS Discovery in line with the conservation management plan, incorporate opportunities for skills development where possible and evaluate the approach to conservation to inform future repairs and wider sector learning. There will be a suite of capital works to Discovery Point in line with available budgets to reconfigure spaces for increased income generating opportunities, improve education space, improve accessibility and associated facilities and improve environmental performance.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The RRS Discovery will undergo a second phase of major repairs to the stanchions and an adjustable cradle will be designed to halt the distortion and enable repairs to the hull. This will allow the ship to be refloated. During works, critically endangered heritage skills in shipwrighting will be shared with core crew and volunteers at the Trust and the process of conservation will undergo an individual piece of evaluation to support organisation and wider sector learning. Capital works to Discovery Point will reconfigure spaces for increased income generating opportunities. There will be a mixture of core programming and visitor experience improvements, updated resources, workshops, trails and targeted schools programmes. The aim is to be a longer term accredited museum and visitor attraction with associated events spaces and facilities.

Subsidy control information in relation to individual awards, 2024

Subsidy control information in relation to grant to Bourne Town Hall

Date of grant: 28 November 2024

Grant expiry date: 30 March 2029

Reference: NL-21-00059

Grantee: Bourne Town Hall Trust

Category of beneficiary: Small enterprise

Subsidy amount: Grant award: £3,296,204. Total project cost: £3,662,449

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy: The purpose of this capital works scheme is to save heritage by addressing the high costs of repairing Bourne Town Hall and to address the deterioration of the historic fabric through a repair scheme which includes the roof, stonework and limestone façade. The project will remove unsuitable 20th century adaptations, create physical access throughout and fit out the building with suitable facilities to deliver the beneficiary's business plan, supporting organisational sustainability. Low carbon measures are incorporated into designs to protect the environment, including air source heat pumps and solar panels. The repair and re-use of the building would be unviable without public funding as the costs of repair outweigh any increase in value resulting from the work. The public funding provides benefits of conservation, education and access and exceeds any private gain.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The project will transform the Grade II listed Old Town Hall to create Bourne's first hub for arts and culture, and boost it as a destination for the rural community and surrounding areas. A new entrance and welcome space will be created with level access which will continue throughout the building. The former 'shambles' market will be converted to a flexible community space with kitchen and bar facilities, for live music, social events, pre-theatre refreshments and markets.

The first floor courtroom will be adapted into a multi-purpose space for 80 people with a stage and retractable seating for performances, cinema showings, workshops and exhibitions. A mezzanine will be created for technical equipment and a viewing platform for the donor board. The clock tower will be reinstated and operated with the original bell and recommissioned original clock mechanism. Interpretation will be embedded throughout the building, focussing on three themes: the funding of the Old Town Hall from local donors, stories of its social history and its transformation into a creative hub.

Subsidy control information in relation to grant to Delapré Abbey Preservation Trust??

Project: A Stable Future

Date of grant: 11 November 2024

Grant expiry date: 31 January 2028

Reference: NL-21-00198??

Grantee: Delapré Abbey Preservation Trust?(DAPT)

Category of beneficiary: Small?

Subsidy amount: £3,096,798 of £5,133,844??

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.?

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. Our Heritage Enterprise grants help projects achieve economic growth by investing in heritage. It supports commercial organisations working in partnership with community organisations to help them rescue neglected historic buildings and sites and return them to a viable productive use.

The programme is designed to bridge the funding gap that prevents a historic asset in need of repair from being returned to a beneficial and commercial use. The case for grant funding is based on the conservation deficit, where the existing value of a heritage asset plus the cost of bringing it back into use is greater than the value of the asset after development has been completed. The programme conserves and values heritage for now and the future, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and

financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.??

Purpose of the subsidy:?The project is self-contained and situated within the wider Delapré Abbey site. The site is a recognised cultural and architectural heritage visitor attraction owned and commercially operated by DAPT within its general charitable purpose. The project is located in the Far Cotton and Delapré ward, which is in the top 10% most deprived wards in the country. The project's objective is to preserve heritage and culture and alleviate the regional disadvantage in the location with activities the local market has identified through consultation and survey as needed to meet existing demand.

Eligibility for the subsidy:?The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.??

Basis for subsidy calculation:?The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.???

Project summary: The project involves the repair and conversion of the vacant and derelict 19th-century stable block to a historic cultural building (which is a significant local visitor attraction) into a health and wellbeing centre for the local community. It will create a social enterprise of 16 mixed-use business units: 621 square metres of additional floor space for flexible office, retail and community spaces for hire. The Gardener's Cottage and Gate Lodge will be used as demonstrator buildings to support construction apprentices and students undertaking work placements on construction/heritage skills training courses in partnership with local colleges. Some spaces will be occupied by DAPT as an extended offer to the Delapré Abbey estate including:

- a community and learning space
- a cafe and sheltered seating
- an interpretation and exhibition space
- public toilets including a fully equipped Changing Places facility

A programme of community activity will also be delivered helping toward increasing participation from community groups. Income generated through the commercial and retail units will provide long-term sustainability and maintenance of the abbey site with a view to creating a sinking fund for future maintenance, whilst also allowing for the whole abbey to be free to enter.

Subsidy control information in relation to grant to The Bonsall Framework Knitters' Workshop

Date of grant: 17 October 2024

Grant expiry date: 30 September 2029

Reference: HA-24-00449

Grantee: Adam Hill and Samantha Deakin Hill

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £210,225

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to the national, regional and local heritage of the UK and deliver our four investment principles: saving heritage, protecting the environment, inclusion, access and participation, and organisational sustainability. Made possible thanks to National Lottery players.

Purpose of the subsidy: The purpose is to address the high costs of repairing the property to conservation standards that are appropriate to its importance as a listed building. The repair and re-use of the building would be unviable without public funding as the costs of repair outweigh any increase in value resulting from the work. The repairs enable the building's historic importance to be understood and for the public to benefit by understanding the area's heritage of framework knitting.

The public funding provides benefits of conservation, education and access and exceeds any private gain. The restoration of the framework knitter's workshop creates opportunity for a limited number of short-term holiday lets, so there is a sustainable income stream for ongoing maintenance and operational costs for the building, educational programme and website.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit or public sector organisations. Private owners of a heritage asset are eligible only where it can be demonstrated that the public benefit outweighs any private gain.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: This project aims to repair and provide a new use for an important, Grade II listed 1737 framework knitters' shop in Bonsall, Derbyshire, into a learning centre, preserving and celebrating local industrial heritage while raising awareness of the critically endangered craft of framework knitting. The building is located at the edge of the Derwent Valley Mills World Heritage Site and is noted as the best surviving example of a traditional frame-knitters workshop in Derbyshire, although its condition is vulnerable and it is at risk of loss. The funding covers the restoration of the framework knitters' building and longer-term open access to the knitter's workshop for education purposes.

Subsidy control information in relation to grant to Tilbury on the Thames Trust

Date of grant: 14 October 2024

Grant expiry date: 31 March 2029

Reference: NL-21-00202

Grantee: Tilbury on the Thames Trust

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £4,478,313

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to the national, regional and local heritage of the UK and deliver our four investment principles: saving heritage; protecting the environment; inclusion, access and participation; and organisational sustainability. Made possible thanks to National Lottery players.

Purpose of the subsidy: The subsidy will allow the Tilbury on the Thames Trust to restore the Grade II* listed railway station building and the remaining elements of the entrance canopy and Tilbury Riverside Arts Activity Centre (TRAAC) building. A new café, events space, heritage exhibition and creative spaces will combine commercial uses and community facilities to improve sustainability.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision and Committee panels.

Project summary: The Back on Track: Tilbury Riverside Station project will deliver a community-led regeneration project restoring the listed building and creating new spaces, serving visitors to the historic building and community as part of a long-term sustainable strategy. Planned activities and outputs include:

- repair of Tilbury Riverside Station interior 1920s units, ticket office and platform space to create heritage interpretation/exhibition spaces
- integration of the Riverside Station as a key part of Tilbury Riverside through new direct access to the Tilbury-Gravesend Ferry
- creation of a café space with striking river views, providing new opportunities for leisure and socialisation for residents, visitors and cruise/ferry passengers
- telling the story of the Empire Windrush and the movement of goods, people and ideas through Tilbury over time
- building a sense of community affinity and attachment through a programme of education and skills development, events, interpretation and a community grants scheme

- commercial use of the premises (creative lets)

Subsidy control information in relation to grant to Re-Form Heritage

Date of grant: 9 October 2024

Grant expiry date: 30 June 2026

Reference: HA-24-00465

Grantee: Re-Form Heritage

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £249,954

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to the national, regional and local heritage of the UK and deliver our four investment principles: saving heritage; protecting the environment; inclusion, access and participation; and organisational sustainability. Made possible thanks to National Lottery players.

Purpose of the subsidy: The project will see Re-Form Heritage respond to recommendations from a series of consultancies undertaken within the past 18 months, allowing the charity the opportunity to improve its financial sustainability and securing the future of the site.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: Re-Form Heritage will install a single storey, modular reception building. The new structure will provide a dedicated entryway to the site and improve wayfinding. Photovoltaic panels will be installed at the Harper Street site, with improvements to gas boilers, lighting and entryways providing greater energy efficiency across the site.

A new learning centre will be developed within a vacant unit within Middleport Pottery, forming distinct areas for learning and event hire. Capital works will partition the space, creating display cases that will reveal machinery that is concealed by the existing wooden structures. Minor repair and conservation work will be undertaken and a floating floor will be installed ensuring that the Grade II* fabric is preserved.

Two full-time staff posts will be created to support the delivery of events and fundraising activities over 12 months.

Subsidy control information in relation to grant to Wicksteed Charitable Trust

Date of grant: 3 October 2024

Grant expiry date: 31 October 2027

Reference: HA-24-00198

Grantee: Wicksteed Charitable Trust

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £250,000

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to the national, regional and local heritage of the UK and deliver our four investment principles: saving heritage; protecting the environment; inclusion, access and participation; and organisational sustainability. Made possible thanks to National Lottery players.

Purpose of the subsidy: The project will allow Wicksteed Charitable Trust to appoint a fixed-term fundraising team and undertake work to better understand potential and existing audiences. The project will support the trust in diversifying income and improving ongoing organisational sustainability.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: Wicksteed Charitable Trust will appoint two fixed-term members of staff who will develop a new fundraising strategy, with a view to diversifying income for the charity.

The trust will also commission consultants to carry out a social and economic impact study and create an audience development plan, developing understanding around potential barriers to access and the benefits that Wicksteed Park can provide.

Subsidy control information in relation to grant to Tullie House Museum and Art Gallery

Date of grant: 19 September 2024

Reference: NL-21-00029

Grantee: Tullie House Museum and Art Gallery

Grant expiry date: 31 December 2029

Category of beneficiary: Small

Subsidy amount: £4,453,582 of £6,814,931

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: Tullie is a museum and art gallery in the centre of Carlisle, Cumbria, and is based in a complex of historic buildings with more modern additions. The project will fund the redevelopment of an exhibition gallery into a new Active Gallery covering 800+ square metres. The existing dated galleries will be stripped out, with the space refitted to a new design with new storage/display systems, interpretation and visitor engagement areas.

A new learning suite will also be created by redeveloping the current learning room, reconfiguring the access route, providing new facilities such as toilets and storage and refurbishing an adjacent ground floor space in an unused building along with a small extension to create a second learning studio.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application, assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The project is Phase 3 of a phased capital development programme guided by the organisation's future plan, which looks to celebrate Tullie's roots as Carlisle's centre for learning and re-present them for today's audiences.

The development of a new gallery is in response to audiences wanting to see more collections, tell their own stories and for the museum to have regular change. A significant amount of the collections will be moved from the on-site store and displayed in the new Active Gallery, creating a

cross between an open collections repository and a gallery for learning and discovery. There will be several areas providing focal points for visitor interaction.

The new learning suite will allow the museum to expand their community and learning offer (schools programme) which is currently over-subscribed, growing capacity and expanding participation for local schools.

Subsidy control information in relation to grant to Linkage Community Trust

Date of grant: 13 September 2024

Grant expiry date: 30 June 2028

Reference: NL-22-00066

Grantee: Linkage Community Trust

Category of beneficiary: Large Enterprise

Subsidy amount: £3,515,000

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: The subsidy will enable the restoration and renovation of Weelsby Hall and two other redundant historic buildings, bringing them back into use and ensuring their future as part of the Weelsby Hall estate.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: The project will restore and renovate the Grade II listed Weelsby Hall estate, a further education campus in Grimsby run by Linkage Community Trust. The capital works will facilitate an updated training facility, including:

- a sensory integration suite and sensory library – providing training skills for residential care and disability needs
- office space for the Trust and third-party use
- six residential units for people with complex care needs

Subsidy control information in relation to grant to Redruth Former Library CIC

Date of grant: 29 August 2024

Reference: HA-24-00205

Grantee: Redruth Former Library CIC

Grant expiry date: 31 May 2026

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £249,570

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme for projects that connect people and communities to the national, regional and local heritage of the UK and deliver our four investment principles: saving heritage; protecting the environment; inclusion, access and participation; and organisational sustainability. This is made possible thanks to National Lottery players.

Purpose of the subsidy: The subsidy will allow Redruth Former Library CIC to develop the Grade II listed building into a new community and creative hub space in the centre of Redruth. Capital works will allow the building to be made safe and usable for new businesses and organisations. A parallel engagement programme will aim to engage specific target audiences in the heritage of the building and the intangible cultural heritage of the ideas of Passmore Edwards and Redruth's local history.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: The focus of the project is on the Grade II listed Passmore Edwards library and college buildings in Redruth, Cornwall. Redruth Former Library CIC will deliver a one-and-a-half year project to undertake capital works to develop the currently derelict building into a community and creative hub to include studio, artist and rehearsal space, businesses and shared working space. Alongside this a series of activities will aim to engage LGBTQ+ communities, global majority communities and young people with the heritage of the building and the cultural ideas and history connected to it. Planned activities and outputs include:

- a full refit of the library building
- structural improvements to make unused areas safe
- new roofs and high level works

- installation of a lift to provide access to the first floor
- installation of secondary glazing and solar panels
- an engagement programme between April 2025 and April 2026

Subsidy control information in relation to grant to Meat Market Regeneration CIC

Date of grant: 25 June 2024

Reference: NL-21-00011

Grantee: Meat Market Regeneration CIC

Grant expiry date: 31 December 2026

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £2,323,737 of £8,349,779

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

Purpose of the subsidy: The derelict and vacant category B listed Meat Market (currently on the Buildings at Risk Register) will be restored and developed into a multi-use covered facility. Capital works include the restoration of the listed structures, demolition of some of the unlisted structures and the creation of a new-build element within the historic structures and landscaping works.

The low intervention rate represents targeted funding and offers good value for money as it recognises the added cost of undertaking work to a historic structure and realising the wider benefit of engaging local communities in heritage activities.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff, and the specially convened recommendation and decision panels.

Project summary: The Meat Market Regeneration Project will deliver a community-led regeneration project restoring listed structures and creating new-build elements, serving the

existing communities and the multiple housing development projects immediately adjacent to this site. The grant will fund a significant proportion, if not all, of the heritage engagement activity, which contributes to the achievement of the outcomes.

This activity would not happen without the grant. The project will also deliver an ongoing heritage activity plan with extensive community engagement transitioning to a Meat Market heritage legacy overseen by the Meat Market Heritage Trust SCIO.

Subsidy Control information in relation to grant to Borde Hill Garden Limited

Date of grant: 21 June 2024

Grant expiry date: 31 December 2029

Reference: NL-21-00055

Grantee: Borde Hill Garden Limited

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £2,250,000

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: This subsidy will unlock 44.5 hectares of the wider heritage landscape of Grade II* listed park and garden, Borde Hill in West Sussex, for new audiences, and local and urban communities. The project will fund capital and landscaping works including:

- a sustainably built Eco Lodge on Robertsmere Lake, South Park, to provide learning and well-being spaces
- a network of accessible paths enabling pedestrian connectivity across the site
- a range of learning and play spaces in Dinosaur Wood
- a community growers and propagation area
- digital and physical interpretation

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: The project is part of Borde Hill's masterplan to ensure its sustainability through transforming the overall visitor offer while protecting the historic inner garden through unlocking the parkland.

The capital, landscape and interpretation works – Eco Lodge, Dinosaur Wood and community growing area – include new native species planting, reedwater management system and creation of new habitats to maximise biodiversity. The new paths network provides pedestrian accessibility and connectivity across the site and a safe green travel route supports local access to the site.

A three-year activity programme provides opportunities for new audiences and under-represented groups through learning, volunteering, apprenticeships, skills development, family activities and health and mental wellbeing activities for over 50,000 people. Borde Hill's botanical heritage and collections, the changing landscape, biodiversity and climate change inform interpretation, activity content and digital provision.

Subsidy control information in relation to grant to Friends of The Pipe Factory CIC

Date of grant: 23 April 2024

Reference: NL-22-00024

Grantee: Friends of The Pipe Factory CIC

Grant expiry date: 31 December 2025

Category of beneficiary: Micro

Subsidy amount: £1,681,836 of £3,919,390

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies. This is made possible thanks to National Lottery players.

This project will see a category B listed building brought back into use which will provide affordable space for 'social tenants', enabling the delivery of activity which will benefit people in an area of high deprivation in Glasgow. The project also complements the local authority's regeneration strategy for the area.

Purpose of the subsidy: The focus of the project will be the development of a sustainable and accessible historic building, with the installation of an external lift and a second escape stair to

enable safe use of the upper floors of the building. The building's energy performance will be improved through the installation of insulation and low energy heating and ventilation systems.

Provision of services will ensure the building is fit for purpose. The development period will see heritage engagement to develop an oral history and digital archive project alongside training in traditional skills and low-carbon building techniques.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: This project seeks to redevelop the category B listed former pipe factory building on the edge of the Barras market in Calton in the east end of Glasgow. This is a well-planned project which builds on longstanding development work of both project and applicant organisation and will achieve mandatory and priority outcomes well. The previous fabric repairs and the prior acquisition have mitigated the costs of this project which, combined with confidence on securing a large proportion of match funding, enable the application to be assessed as good value for money.

Subsidy control information in relation to grant to the University of Kent

Date of grant: 15 April 2024

Grant expiry date: 31 March 2026

Reference: NL-22-00047

Grantee: University of Kent

Category of beneficiary: Large Enterprise

Subsidy amount: £3,567,400

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. Using money raised by the National Lottery, the National Lottery Heritage Fund inspires, leads and resources the UK's heritage to create positive and lasting change for people and communities, now and for the future. A funding programme for projects that connect people and communities to the national, regional and local heritage of the UK. Made possible thanks to National Lottery players.

The Heritage Enterprise programme is designed to bridge the funding gap that prevents a historic asset in need of repair from being returned to a beneficial and commercial use. The public policy objective for our Heritage Enterprise programme is to help projects achieve economic growth by investing in heritage. It supports commercial organisations working in partnership with community organisations to help them rescue neglected historic buildings and sites and return them to a viable productive use.

Purpose of the subsidy: University of Kent will transform Chatham Dockyard's Grade II-listed Police Section House and surrounding land into a digital and creative enterprise hub and flagship home for the university's Institute of Creative and Cultural Industries (iCCi). The project supports strategic agendas for skills development and economic growth as part of Levelling-Up (LUF1) as well as heritage engagement.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the Trustees of the National Heritage Memorial Fund decision meeting.

Project summary: The Docking Station project will deliver a high-quality refurbishment of the Grade II listed Police Section House, including restoring the cupola and access improvements to provide exhibition and hireable meeting space; café; post-production studios; offices; co-working and communal spaces. It is a key part of regeneration plans for the historic waterside site and opens up new possibilities for young people and the communities of Kent and Medway.

A new digital production studio building at the rear will become a main studio for virtual production and motion capture; providing production offices and technical spaces. New landscaped areas at the front, a courtyard garden and other seasonal gardens include public areas.

A programme for local residents, families and children, young people aged 13–25 years, schools and colleges, will develop digital skills and creativity as well as exploring the diverse heritage of dockyard communities and the site. A Docking Station Digital Ecosystem in three Medway venues and Tech31 Medway collaboration will also provide access to digital creativity for Medway residents.

Subsidy control information in relation to grant to Boston Preservation Trust Limited

Date of grant: 28 March 2024

Reference: NL-21-00058

Grantee: Boston Preservation Trust Limited

Category of beneficiary: Micro Enterprise

Subsidy amount: £1,416,689

Grant expiry date: 20 May 2027

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: The subsidy will allow Boston Preservation Trust to carry out a series of repairs to Fydell House, a Grade I listed, Queen Anne-style townhouse, located within the Boston Conservation Area. The project centres on three aims: improving access, renovating the building and developing activities to support sustainability (including operating a wedding venue and café).

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: An activity plan has been developed to engage new audiences and uncover the storied history of Fydell House. Oral histories will be collected relating to Fydell House's use as Pilgrim College in the 20th century, and several rooms will be restaged in period-accurate dressings. Further activities will engage school-age students, with a range of accessible formats considered. Capital works will include:

- repairs to the historic fabric, including Rococo-style papier mâché mouldings and plaster
- The existing stone landing at the main entrance will be brought forward, and symmetrical ramps added at either side. Site accessibility will be improved throughout the ground floor and garden pathways widened.
- improvements to WC facilities and the on-site kitchen

Subsidy control information in relation to grant to Brymbo Heritage Trust

Date of grant: 28 March 2024

Grant expiry date: 21 March 2025

Reference: HG-17-01715

Grantee: Brymbo Heritage Trust

Category of beneficiary: Small

Subsidy amount: Grant increase of £2,427,686; total grant £7,535,816

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: Brymbo Heritage Trust aim to build a new sense of pride, hope and cooperation in the area. They are continuing their mission by:

- conserving and selectively reusing Brymbo's historic buildings to develop a visitor attraction, learning hub and small business space
- further exploring the 300-million-year-old Brymbo Fossil Forest, interpreting natural history and its impact on the development of industry
- celebrating the people, skills and attitudes that have contributed to Brymbo's place in the world

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary:

The Brymbo Heritage Trust received a delivery grant of £4,147,200 in March 2020. This increase feeds into the aim of the project which are:

- stabilisation of key structures including the two 20th-century cupolas and the 19th-century charging wall
- stabilisation/refurbishment of the Agent's House, Blast Colliery and a series of ironworks buildings including the Pattern and Joiners Workshop, Foundry and Cast House
- restoration and fit out of the Machine Shop as a visitor welcome and interpretation centre
- provision of a protected environment for the excavation of the fossil forest
- interpretation of the story of Brymbo
- a programme of engagement activities

Subsidy control information in relation to grant to Pailton Parish Council

Date of grant: 28 March 2024

Grant expiry date: 30 September 2026

Reference: NL-21-00042, Save the White Lion

Grantee: Pailton Parish Council

Category of beneficiary: Micro

Subsidy amount: £2,040,170

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: This is a community-led Heritage Enterprise project to create a community pub. Sympathetic renovation will create a fully accessible site and improve environmental sustainability.

The project will repair and re-use an at-risk Grade II listed former coaching inn, meeting demand for local amenities and creating employment opportunities.

The activity statement delivers strong outcomes for people and will facilitate inter-generational connection, reducing rural isolation.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary:

The White Lion Inn is a Grade II listed former coaching inn, situated in the village of Pailton, Warwickshire. In 2019, Pailton Parish Council secured a Public Works Loan Board loan to purchase the site with the aim of bringing it back into community use (it has been vacant since 2014).

This Heritage Enterprise project will restore the White Lion and provide facilities for a range of contemporary community uses. The pub will be reinstated, with restaurant and café facilities on the ground floor, and overnight accommodation on the upper floors. New uses include:

- a shop and Post Office
- community meeting spaces
- enterprise units
- community gardens
- newly landscaped exterior to host markets and family activities

Delivery timetable: May 2024 to September 2026

Capital works:

- full conservation and restoration of the listed buildings, incorporating sustainable technologies for carbon neutral operation
- demolition of modern block detracting from the heritage significance
- ground floor renovation to create fully licensed pub, restaurant and café with kitchen facilities
- second and third floor renovations to create five ensuite rooms and one suite for overnight accommodation
- restoration of the historic brewhouse to create a community shop and enterprise units for artisan producers / local businesses
- landscaped exterior to create community gardens, garden loggia and space for events / markets
- full disabled access

Activities will include:

- research, interpretation and display of the history of the White Lion (including photographs and artefacts)
- a local artist to design traditional signs and decorations
- memory sharing hubs to deliver group reminiscence sessions and individual oral history interviews
- interactive Post Office resources, developed with local families and supported by the Postal Museum, to be made by local craftspeople
- volunteer researchers to develop interpretation and online resources, supported by the County Records Office, Pub History Society and Oddfellows Society
- What Made Pailton? lecture series
- development of the White Lion website and social media pages
- local producer and craft markets
- traditional pub games and tournaments
- community gardening teams
- launch celebrations

Subsidy control information in relation to grant to Quentin Blake Centre for Illustration

Date of grant: 25 March 2024

Grant expiry date: 31 January 2028

Reference: NL-22-00065

Grantee: Quentin Blake Centre for Illustration

Category of beneficiary: Small

Subsidy amount: a grant award of £3,750,000

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: This project will create a permanent centre for illustration and a new home to display the Quentin Blake Archive, in the New River Head site (0.34 hectares) in Clerkenwell, containing four buildings (944 sqm) and a range of spaces, accompanied by community engagement programmes.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: This project will create a permanent centre for illustration and a new home to display the Quentin Blake Archive, in the New River Head site (0.34 hectares) in Clerkenwell, containing four buildings (944 sqm) and a range of spaces, accompanied by community engagement programmes.

Capital works include building restoration and refurbishment and a new build link. Activities include:

- community heritage interpretation
- digital interpretation
- touring programme
- co-developed community heritage project with older adults at risk of isolation
- schools workshops
- Continuing Professional Development (CPD)
- adult learning
- traineeships /apprenticeships
- volunteering programme

Subsidy control information in relation to grant to The Churches Conservation Trust

Date of grant: 14 March 2024

Grant expiry date: 30 March 2025

Reference: HE-13-00951

Grantee: The Churches Conservation Trust

Category of beneficiary: Medium

Subsidy amount: Grant increase of £373,422.45

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: The Churches Conservation Trust has presented revised costs and an increased funding request at an advanced stage of project delivery. The increase results from challenges and unforeseen costs in repairing the building and dealing with the unexpected archaeological finds, securing the pub operator and accommodating additional items of work.

The prime focus of the project is the restoration of the vacant and at-risk Old Black Lion pub and its outbuildings. These lie in central Northampton adjacent to St Peter's Church, a redundant church in the care of the Churches Conservation Trust.

The building will be a focus for activities and interpretation as part of Northampton's Heritage Gateway. Surplus income would contribute to the sustainability of St Peter's providing facilities for activities and events.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary:

The Old Black Lion is Grade II Listed and adjoins the Grade I Listed St Peter's Church and the remains of a Saxon palace complex, a Scheduled Ancient Monument.

The Old Black Lion is to be repaired and refurbished as a viable new business, hospitality venue and heritage destination through project funding.

An operational pub partner, Phipps Brewery, a local company with roots in Northampton, has agreed draft heads of terms. The Central Council for Bellringers will rent space in the stable building within the pub courtyard.

Subsidy control information in relation to grant to Plymouth City Council

Date of grant: 14 March 2024

Grant expiry date: 31 March 2029

Reference: OL-19-03781

Grantee: Plymouth City Council

Category of beneficiary: Large enterprise

Subsidy amount: £4,100,000

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Heritage Horizon Awards is a targeted grant programme for transformational heritage projects: "Backing big ideas, unlocking possibilities". A funding programme for projects that are transformative, innovative and collaborative that bring about positive changes and benefits to people, place and revolutionise UK heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: Plymouth City Council will work with partners to create the UK's first National Marine Park, a once-in-a-lifetime transformational opportunity for Plymouth. It will create a blueprint for an innovative model for National Marine Parks. Plymouth Sound is a natural and heritage landscape that is unsurpassed and has played a major role in the national psyche, shaping our history for hundreds of years. A unique landscape that since the Bronze Age has borne witness to some of the most significant moments of human endeavour.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be not-for-profit organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the Trustees of the National Heritage Memorial Fund decision meeting.

Project summary:

The UK's first National Marine Park will include three large scale 'Gateways':

- new accessible facilities for water users at Tinside Lido and the Hoe foreshore
- improvements across the Mount Batten Peninsular, enhancing the landscape and its heritage
- conservation of The Garden Battery at Mount Edgumbe to create a new public space

The National Marine Park will also include:

- two 'Community Access Points' projects; one at Ernesettle Creek and the other at Firestone Bay to increase access and widen participation in areas that are important to local people
- four distinct 'Nature Boost' projects to help support the recovery of species and habitats in Plymouth Sound
- an inclusive activity plan that will drive a marine citizenship programme, providing diverse opportunities to engage with the Park, discover and learn more about it and support activities to help enhance and care for it
- a 'Digital Park' to bring the wonders of the Park to life and enable everyone to experience the treasures below the waves
- Interpretation to tell the stories of the Park, past, present and future. Features will be located at the capital Gateways and areas away from the waterfront, linking the stories of Plymouth Sound throughout the city.

Subsidy control information in relation to grant to Urras nan Tursachan

Date of grant: 11 March 2024

Grant expiry date: 21 August 2027

Reference: NL-21-00130

Grantee: Urras nan Tursachan

Category of beneficiary: Micro

Subsidy amount: £2,966,731

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: Urras nan Tursachan will redevelop and expand the outdated Calanais Visitor Centre to create an accessible and rich visitor experience which encourages a deeper understanding of the Calanais Standing Stones and their significance to the Western Isles. The

project aligns with the Dualchas do Dhaoine, produced as part of the Heritage Fund supported Great Place Scheme. This strategy identifies two key strands for future activity:

- innovation and entrepreneurial focused developments
- financial sustainability through investments which support longer-term needs

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary:

Urras nan Tursachan will redevelop and expand the outdated Calanais Visitor Centre to create an accessible and rich visitor experience which encourages a deeper understanding of the Calanais Standing Stones and their significance to the Western Isles.

Concurrently, Urras nan Tursachan will form an agreement with Historic Environment Scotland to manage access to the site and ensure improved management and maintenance through a joint charging scheme. The majority of funds from this agreement will be reinvested into the Outer Hebrides.

The Calanais Visitor Centre and adjacent standing stones are located on the west coast of the Isle of Lewis.

The three-year programme will include:

Capital works

- The existing, curved visitor centre built in 1995 will be fully refurbished and expanded into an interactive interpretation space.
- An extension to the main building will provide facilities for larger parties and community functions.
- The 19th-century adjacent farmhouse will be refurbished to house a kitchen, larger café area, enhanced retail area and dedicated office space.
- Significant landscaping works will be undertaken around the visitor centre to improve accessibility, car parking and coach space.
- Access to the stones will be improved through pathworks.

Interpretation

- Interpretation space will increase from 38 to 170 square metres.

Activities will include:

- Annual events linking to the equinox and solstice, Dark Skies Festival and the New Year Light Festival. Related partnership events with Outer Hebrides Tourism and An Lanntair will be delivered including residencies, exhibitions, storytelling events and outdoor pieces.
- Two flagship events: a launch event and Lunar Standstill event in 2025.
- Targeted activities including an art project to cover the heras fencing, hard hat tours, traditional skills workshops, nature-focused workshops, a schools competition and a quarterly craft supplier showcase.
- In collaboration with members of the Outer Hebrides Heritage Forum, a series of in-person and virtual walks and tours.
- Archaeological focused activities including skills workshops, a summer school and re-establishment of the Young Archaeologists Club.
- Creation of a new website with content development activities with local schools and heritage organisations.

Target audiences for community engagement are:

- the local community
- school aged children and families
- special interest groups
- visitors from outside the island visiting family or friends

Subsidy control information in relation to grant to The Worcestershire Building Preservation Trust Ltd

Date of grant: 30 January 2024

Grant expiry date: 31 August 2026

Reference: HE-19-03540

Grantee: The Worcestershire Building Preservation Trust Ltd

Category of beneficiary: Small

Subsidy amount: £2,328,595.00

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: Worcestershire Building Preservation Trust (WBPT) in partnership with Wychavon District Council (WDC) has been awarded Heritage Enterprise funding to sensitively repair and adapt the derelict Grade II Willow Court Farmhouse, near Droitwich, into six modern affordable rentable homes. On completion the building will be leased to Platform Housing Group (PHG), a social housing provider who will become the landlord.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary:

Worcestershire Building Preservation Trust (WBPT) in partnership with Wychavon District Council (WDC) is seeking Heritage Enterprise funding to sensitively repair and adapt the derelict Grade II Willow Court Farmhouse, near Droitwich, into six modern affordable rentable homes. On completion the building will be leased to Platform Housing Group (PHG), a social housing provider who will become the landlord.

The building's current structural layout of three flats with independent entrances at ground floor level, two flats at the first floor and one unit at second floor level will be retained. The 20th century extensions will be rebuilt to accommodate six modern one-bedroom flats (five flats suitable for two people and one flat suitable for one person).

Capital investment:

- structural repairs to the stabilised wall structures
- repair of existing external walls, both masonry and timber framed
- formation of new and repair of existing internal floor structures and associated partition walls
- formation of new and repaired roof structures, incorporating insulation and handmade tile finishes to match existing
- construction of 20th century (replacement) extensions
- new windows, doors and joinery throughout the building, including all associated ironmongery
- installation of new mechanical and electrical services
- below ground water drainage connections
- new kitchens and bathrooms
- external landscaping to include new entrance road and car parking, with EV charging provision

An activity statement has been produced which outlines the following physical outputs that will be delivered with financial support:

- main contractors will employ two apprentices and train in heritage skills
- a film charting the restoration process

- development of a digital platform to share restoration and historical development of the building using maps
- creation of hoardings for the scaffold
- creation of a virtual tour of the site which will be uploaded to the website
- creation a community tapestry
- bespoke education packs and regular school visits
- a student heritage training bursary scheme and funding of two apprentices
- Memories will be collected from current residents and uploaded onto the website, along with talks, tours, and activities to raise awareness of the heritage of the site.
- architects will deliver two best practice sessions on the restoration process and re-use of listed buildings as affordable housing
- heritage skills taster training sessions in carpentry, stone masonry and pointing (lime mortar), traditional planting and seed swap
- Production of new home user guides

Subsidy control information in relation to grant to New Lanark Trust

Date of grant: 10 January 2024

Grant expiry date: 31 December 2024

Reference: MF-22-00097

Grantee: New Lanark Trust

Category of beneficiary: Small

Subsidy amount: £2,395,140

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980.

Policy objective: To safeguard nationally important heritage assets within England which were at risk as a direct result of coronavirus (COVID-19).

Purpose of the subsidy: A programme of works to address the backlog of maintenance and reactive repair issues for this UNESCO World Heritage site, which have compounded during the pandemic due to the inability of the organisation to generate sufficient income to support costs.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The grant will fund a programme of works to address the backlog of maintenance and reactive repair issues at its UNESCO World Heritage site, which have been compounded by the impact of the pandemic on the Trust's capacity to generate income.

The backlog maintenance for 2022/23 is included along with repairs to the Nursery & New Building, School Building and Long Row roofs as per their prioritised maintenance plan.

Oversight of the site is provided by a partnership between New Lanark Trust, South Lanarkshire Council and Historic Environment Scotland, which enables the partners to bring their various areas of expertise to support the site over the long term.

Subsidy control information in relation to grant to Theatr Clwyd Trust Ltd

Date of grant: 9 January 2024

Grant expiry date: 1 June 2025

Reference: NM-23-00837

Grantee: Theatr Clwyd Trust Ltd

Category of beneficiary: Small

Subsidy amount: £249,295

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: Theatr Clwyd is a Grade-II listed building, built in 1976 by Clwyd County Council to serve the region with world-class theatre and arts. Since opening, the theatre has seen performances of classic Welsh plays such as the 2014 production of Under Milk Wood to mark the centenary of the birth of Dylan Thomas. Part of the building was used as the original broadcast studios for ITV Wales and West, and includes "the original working paintframe", "rare handmade acoustic tiles in the main auditorium" and "1970s front of house tiling".

This project will increase the accessibility of Theatr Clwyd, thereby enabling a wider range of people to engage with the heritage of the building. Both built and intangible heritage is at risk, so is there a need for the project.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary:

This project forms part of a wider project of capital renovations to the Theatr Clwyd building. The aspect of the project funded by us has two main elements:

Capital renovations – All public areas of the theatre building will be made fully accessible and inclusive, with comprehensive wheelchair and buggy access and the installation of five new lifts enabling visitors to access all levels, accessible toilets, showers and dressing rooms as well as wheelchair charging points and hearing loops.

Activities – Employ two research practitioners to research and collect stories from the public relating to the visible heritage features of the building. This research will then inform the production of a 10-minute radio play and the development of a heritage trail throughout the building, highlighting the stories and heritage assets of the theatre. The heritage trail will be self-guided, with associated materials collectible from the box office during opening hours or digitally downloadable.

Subsidy control information in relation to individual awards, 2023

Subsidy control information in relation to grant to Buxton Civic Association Ltd

Date of grant: 20 December 2023

Reference: NM-23-00720

Grantee: Buxton Civic Association Ltd

Category of beneficiary: Small and medium sized enterprises

Subsidy amount: £249,990

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery

players.

Purpose of the subsidy: Buxton Civic Association (BCA) owns and manages 200 acres of woodland surrounding Buxton and Poole's Cavern, a two-million-year-old natural limestone cave. The project will enable Buxton Civic Association (BCA), to enact organisational changes and explore new opportunities for engaging members, volunteers and visitors with these important attractions.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: This 26-month project will support the Buxton Civic Association (BCA) to become more organisationally resilient. It will achieve this by increasing the organisation's capacity to implement changes, testing new Audience Development and Volunteer Plans, exploring new commercial opportunities, and commissioning professional advice to improve governance.

Subsidy control information in relation to grant to Citizens Theatre

Date of grant: 19 December 2023

Grant expiry date: 30 June 2024

Reference: HG-13-09470

Grantee: Citizens Theatre

Category of beneficiary: Medium

Subsidy amount: a grant increase of £2,500,000. Total grant awarded: £7,295,000.

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: The funding will allow Citizens Theatre to restore and safeguard the future of a Grade B listed Citizens Theatre in Glasgow. The theatre is an important historic cultural landmark and community focal point in Glasgow's Gorbals area.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The Project aims to restore and safeguard the future of the iconic Grade B listed Citizens Theatre in Glasgow. The theatre was located in the Gorbals, an area of severe socio-economic deprivation and was of huge cultural importance in that context and for the whole city. The project would undertake urgent repair and conservation work to restore the original auditorium of the theatre and remove inappropriate modern additions. Accessibility would be improved and the flexibility of backstage and auditorium space would be enhanced. A programme of audience development and outreach events would be delivered.

The theatre is an important historic cultural landmark and community focal point in Glasgow's Gorbals area. The area has seen significant transformative change through demolition of high rise social housing tower blocks adjacent and replacement with high quality affordable housing delivered by a partnership of private developers and housing associations in what is seen as an exemplar model of urban-planning.

The project will focus particularly on:

- removing and replacing dilapidated non-original additions
- maximising public access and enhancing visitor experience
- cataloguing and conserving historic collections
- interpreting the heritage of the building
- delivering a programme of community engagement
- providing volunteering, training and skills development opportunities.

Subsidy control information in relation to grant to Menter Ty'n Llan Cyfyngedig

Date of grant: 19 December 2023

Reference: NL-22-00028

Grantee: Menter Ty'n Llan Cyfyngedig

Category of beneficiary: Small and medium sized enterprises

Subsidy amount: £1,709,456

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and

communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: Menter Ty'n Llan owns and runs Ty'n Llan tavern in Llandwrog and aims to develop the historic building and its garden to provide an accessible community hub for wellbeing and social purposes, to support its organisational sustainability by developing new income streams through hospitality, and to improve environmental performance of the building.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: The project aims to transform Ty'n Llan tavern into a community hub which will foster connections between people and place and celebrate the built, natural and cultural-linguistic heritage of Llandwrog and beyond. Physical work includes development of catering and hospitality facilities, provision of car park space, interpretation of regional heritage, and an allotment. A programme of educational and social events for visitors and the community.

Subsidy control information in relation to grant to West Calder & Harburn Community Development Trust Ltd

Date of grant: 19 December 2023

Grant expiry date: 31 March 2029

Reference: NL-21-00135

Grantee: West Calder & Harburn Community Development Trust Ltd

Category of beneficiary: Small

Subsidy amount: £1,929,600

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environment sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: The subsidy will fund a project which will repair and redevelop the vacant and at-risk building into a heritage centre, an accessible hub for education and training and an entry point for local wellbeing services. The historic building represents an important part of the social and industrial heritage of the co-operative movement which was so important to the town of West Calder and wider West Lothian area.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: Over a five-year delivery phase, this project will repair and redevelop the vacant and at-risk building into a heritage centre, an accessible hub for education and training and an entry point for local wellbeing services. The historic building represents an important part of the social and industrial heritage of the co-operative movement which was so important to the town of West Calder and wider West Lothian area.

Capital works

- Comprehensive repairs to the historic building fabric will include brickwork repair, re-slating the roof, reinstatement of leadwork and cast-iron rainwater goods, replacement of windows and removal of internal partitions.
- Redevelopment of the building will provide reception space, permanent exhibition, temporary gallery, flexible community space, catering kitchen, café, shop and toilets on the ground floor.
- On the upper floor, a flexible events/exhibition space, archive store, servery, toilets, exhibition storage and a staff room will be provided. The provision of an exhibition store within the building will ensure artefacts related to the Scottish Co-operative movement are appropriately stored.
- On the lower ground floor, a wellbeing hub of partner organisations office space, store, toilets and a Changing Places toilet will be provided.

Activities, outputs and audiences

- Priority audiences to be targeted include: families, young people, autism groups and individuals, older and retired people, schools, Higher and Further Education institutions, heritage tourists and special interest visitors.
- Heritage engagement activity will include collections management, gathering and co-producing content, institutional loans, collecting roadshow, undertaking an oral history project, digital crowdsourcing material, community research programmes, banner creation and co-curating temporary exhibitions.
- The 'Hidden Histories' traineeship will comprise three targeted paid placements for deaf, disabled or neurodivergent individuals to reinterpret co-operative stories through the lens of disability.
- The learning programme will provide education materials to enhance visits for primary schools and more specific material for secondary pupils in social subjects and health and

wellbeing. Work placements will be provided for students from West Calder High School and West Lothian College.

- Volunteering opportunities and training will be provided alongside most functions in the centre (reception, shop, guide, collections, digital, events etc).
- A celebratory booklet will be produced for the 150th anniversary of West Calder Co-operative Society in 2025, co-designed with community members and co-operative shareholders.
- Wellbeing monitoring and evaluation will be supported and informed by advisory groups and oversight panels including: Autism/ASN lived experience panel, Co-op Heritage and Museums Panel, and Specialist Organisations Panel.

Subsidy control information in relation to Hafod Morfa Copperworks

Date of grant: Grant increase letter dated 15 December 2023

Grant expiry date: 29 February 2024

Reference: HE-15-01729

Grantee: City and County of Swansea

Category of beneficiary: Large

Subsidy amount: £1,428,119 grant increase. Total grant amount: £5,245,519

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: The Heritage Enterprise programme is designed to bridge the funding gap that prevents a historic asset in need of repair from being returned to a beneficial and commercial use. The public policy objective for our Heritage Enterprise programme is to help projects achieve economic growth by investing in heritage. It supports commercial organisations working in partnership with community organisations to help them rescue neglected historic buildings and sites and return them to a viable productive use.

The original grant involved using public funding to rescue a derelict Grade II listed building, turning this from an empty shell into a vibrant attraction, creating local jobs and increasing the number of visitors to the Copperopolis area. This is a grant increase and the public policy objective was informed by the spike in costs and a realisation that without additional funding the project would be stopped.

The level of subsidy in this instance is the increase in costs; it is therefore considered to represent the viability gap. This objective recognised that the measure would deliver many meaningful long-term regeneration benefits, thereby contributing to the economic development of the Tawe Valley.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations or partnerships between commercial and not-for-profit organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels. The level of subsidy in this instance is the increase in costs; it is therefore considered to represent the viability gap.

Project summary: This is a Heritage Enterprise project and is based on the conservation deficit, where the existing value of a heritage asset plus the cost of bringing it back into use is greater than the value of the asset after development has been completed.

This project is based on the site of the former Hafod Morfa Copperworks, which contains 12 Grade II listed buildings or structures related to the copper industry (including the Grade II* Powerhouse and Grade II Rolling Mill).

The Rolling Mill building, partially serving as Swansea Museum's Collections Centre, had been in reasonable condition but the other historic buildings had been almost entirely neglected since 1980, with vandalism, arson, and vegetation all hastening decay. Many buildings including the Powerhouse were on the council's Listed Buildings at Risk Register and not considered commercially viable.

The Penderyn whisky company has identified the potential to base an expansion of their highly successful business at the Grade II listed Powerhouse building, and part of the Grade II listed Rolling Mill on the internationally significant Hafod-Morfa Copperworks site in Swansea.

This expansion of Penderyn on a 99-year lease will provide a sustainable core to act as the catalyst to unlock further regeneration of a site that was the crucible of the world copper industry in the 1800s. Using copper distillery equipment will connect a new manufacturing process with the vibrant past of the site.

New interpretation and an integrated visitor centre will link the commercial operation with the rich copper history of the site, and act as a focus for the memories and artefacts cherished by local people, bringing them to an international audience.

Project capital works include:

- restoration of the Powerhouse Building
- reconfiguration of the adjacent Rolling Mill for partial use
- construction of a new visitor centre building between the two

The level of subsidy in this instance is the increase in costs; it is therefore considered to represent the viability gap.

Subsidy control information in relation to grant to Kala Sangam

Date of grant: 13 December 2023

Grant expiry date: 30 June 2026

Reference: NL-21-00243

Grantee: Kala Sangam

Category of beneficiary: Small

Subsidy amount: £2,291,947

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Heritage Grants is our open programme for all types of heritage projects in the UK. It is a funding programme that focuses on conserving and valuing heritage for now and the future, supporting nature recovery and environmental sustainability, supporting greater inclusion, diversity, access, and participation in heritage, and strengthening heritage to be adaptive and financially resilient, contributing to communities and economies, all of which is made possible thanks to National Lottery players.

Purpose of the subsidy: Transforming Heritage at Kala Sangam: celebrating, archiving and bringing to life the stories of the communities that have shaped St Peter's House and building a bright, accessible future for this landmark heritage building.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: Kala Sangam has collaborated widely with Bradford's diverse communities, developing large-scale proposals to revitalise its home, the Grade II listed St Peter's House, by removing significant access barriers and creating physical spaces needed for upscaling heritage delivery, supported by an inclusive two-year activities programme.

The 39-month delivery phase will commence in December 2023, with capital works anticipated to complete in April 2025. Activities will be delivered through to February 2026. Full-time staff comprise a Head of Community Engagement and a Heritage Engagement Officer.

Some of the capital works will include:

- new central entrance, sympathetically designed to complete the existing façade through adapting principal windows into new door openings, and stairs
- new gallery and interpretation space to act as the central foyer, housing permanent and seasonal heritage interpretation/exhibitions
- four new studio spaces for heritage engagement
- two accessible lifts
- roof fabric protection works
- access interventions
- Changing Places facilities
- repurposing the ground floor, including provision for a new community-led tenant (BCB Community Radio), effectively doubling publicly accessible floor space at St Peter's House

Extensive activity will engage people from across Bradford, focusing specifically in areas experiencing high levels of deprivation and low cultural engagement.

Kala Sangam will work with four local core-communities, who reflect the multicultural diversity of City Ward (where Kala Sangam is located):

- WomenZone (predominantly older, Pakistan-born, South Asian women)
- NAFS (South Asian mothers and children and Eastern European refugees)
- u3a (older, White British and no longer in full-time work)
- New Libya Society (all ages)

During year one, activity will be delivered in local community settings. The second year's activities will be delivered on-site (post-capital) and work created will tour to communities across the district.

Subsidy control information in relation to grant to Llanelly House Trust Ltd.

Date of grant: 15 November 2023

Reference: NM-23-00581

Grantee: Llanelly House Trust Ltd.

Category of beneficiary: Small to Medium Enterprise

Subsidy amount: £112,000 (Grant awarded)

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 National Lottery Etc. Act 1993

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. Using money raised by the National Lottery, the National Lottery Heritage Fund inspires, leads and resources the UK's heritage to create positive and lasting change for people and communities, now and for the future. A funding programme for projects that connect people and communities to the national, regional and local heritage of the UK. Made possible thanks to National Lottery players.

Purpose of the subsidy: The project facilitates free access to heritage and the project will enable Llanelly House Trust Ltd to reopen Llanelly House as a venue and a visitor attraction working towards a sustainable future.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit organisations, or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: This is a one-year project to revitalise Llanelly House Trust's business plan and carry out urgent works to Llanelly House, a Grade I listed building which has been described as the finest early 18th century town house in Wales. The project will be funded to support essential maintenance costs and upgrade works. The project is targeting people local to Llanelly House by allowing for the building to reopen as a viable and attractive visitor experience and venue, particularly for school visits.

Subsidy control information in relation to grant to Cardiff Market Restoration Project

Date of grant: 30 October 2023

Reference: OL-18-07277

Grantee: County Council of the City and County of Cardiff

Category of beneficiary: Large

Subsidy amount: £2,091,500 of £6,504,800 (32%)

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 National Lottery Etc. Act 1993

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: The grant will fund a project that concentrates on the restoration of the Grade II* listed Victorian indoor market in Cardiff city centre, with a focus on improving the sustainability of the market and increasing / sharing a greater understanding of its heritage.

Eligibility for the subsidy: National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The project will focus on the restoration of the Grade II* listed Victorian indoor market in Cardiff city centre, with a focus on improving the sustainability of the market. Through this specific proposal, the applicant seeks to bridge the funding gap that prevents the historic asset in need of repair from being updated and sufficiently maintained in order to continue to be of beneficial use.

This project is based on a Victorian indoor market which has historically been a popular destination for shoppers but has suffered from a decline in the aging visitor base and outdated systems – particularly drainage – that are now preventing current and potential tenants from meeting required standards.

The project will ensure that the historic asset can continue to serve the community and support the local economy into the future, by undertaking significant repairs, modernising sub-sufficient systems and broadening the inclusivity of the market.

Subsidy control information in relation to grant to Dewsbury Arcade

Date of grant: 26 October 2023

Reference: NL-21-00235

Grantee: The Council of the Borough of Kirklees (Kirklees Council)

Category of beneficiary: Large (250 plus)

Subsidy amount: £4,441,032 of £6,044,378

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: The Heritage Enterprise programme is designed to support developments that would not attract commercial interest and therefore are not commercially viable. The grant calculation is structured around the conservation deficit to ensure our contribution is targeted and appropriately proportionate to the redevelopment cost.

The Arcade is an important part of the Dewsbury Town Centre Strategic Development Framework (2018), Dewsbury Blueprint (2020), the Local Plan and the HAZ partnership. It also features in the Council's draft Heritage Strategy/Action Plan. The government has demonstrated commitment to the project by committing match funding from the Towns Fund (TF) and Getting Building Fund (GBF). The Council's application states the project will contribute to Levelling Up.

Purpose of the subsidy: Our grant is a contribution towards the conservation deficit plus activity costs for the restoration and upgrade of the Grade II Dewsbury Arcade and adjacent property.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit organisations, or public sector organisations, or for-profit organisation applicants could partner with a not-for-profit body. The heritage asset had to be of outstanding importance to the national heritage and at risk.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: Kirklees Council will restore and upgrade the Grade II Listed Dewsbury Arcade, and an adjacent property, to occupy a prominent position in the at-risk Dewsbury Town Centre Conservation Area, before leasing most of them to a Community Benefit Society, aside from two self-contained units that it will let separately. The Community Benefit Society will manage the Arcade as a vibrant central hub, providing independent retail units, artist studios, services, events and large bookend units for food/beverage consumption.

Its target tenants will be creative start-up entrepreneurs/artists, with a particular focus on young people and people of Asian heritage. The project will also include a programme of consultation, exhibitions, activities, learning resource creation and tours. Target audiences will include Kirklees College students, shoppers, pedestrians, visitors, community groups and audiences of the Council's adult learning and cohesion programmes. Again there will be a particular focus on underrepresented South Asian communities and young people.

Subsidy control information in relation to grant to Belfast City Council and Strand Arts Centre

Date of grant: 20 September 2023

Reference: NL-21-00125 Strand Arts Centre – A Lasting Picture House

Grantee: Belfast City Council and Strand Arts Centre (charity no 104893) – joint grantees

Category of beneficiary:

Belfast City Council: Large, 250-plus employees

Strand Arts Centre: Small enterprise, 10-49 employees

Subsidy amount: £768,069 of £6,940,069.00

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and the National Lottery Etc. Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

The grant funded project also aligns with local and government strategies and objectives.

It aligns with Northern Ireland (NI)'s Programme for Government (PfG) which sets the policy for NI devolved government. As a regeneration, arts and cultural project this bid will deliver on a number of PfG objectives but most specifically will contribute to NI Department for Communities targets relating to the objective: 'People want to live, work and visit here'.

The project complements the overriding aims of the Northern Ireland Executive in growing and rebalancing the Northern Ireland economy as well as helping to address outcomes linked to social disadvantage for the local population. The project will complement much of the current initiatives supported by Belfast City Council in regards to growing the cultural offering of the city.

At the local government level, the proposed investment will deliver on the policy objectives of 'A City Imagining' Cultural Strategy which makes a long-term commitment to the Belfast's heritage, cultural and tourism assets as a means to drive transformation. It will quantifiably contribute to achieving 12 of the 16 priorities identified in the strategy.

Purpose of the subsidy: Funding for a two-and-a-half year capital project for the restoration of the Strand Arts Theatre to be delivered by Belfast City Council together with various activities to be run for the duration of the capital project by Strands Art Centre. On completion of the capital project, Strand Arts Centre will continue to operate the Strand Arts Theatre under its 25-year lease of the property.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

The options appraisal and business case for the provision of arts infrastructure for this part of Belfast and the refurbishment of Strand Arts Centre assessed a number of options and identified this project as the best value for money, delivering on a variety of policy objectives through its social and economic outputs.

Project summary: Restoration of the Strand Arts Centre (SAC) building in a way that maximises its heritage landmark status and enables the development of a high quality, sustainable, creative space in a way that brings positive and demonstrable economic and social benefits to East Belfast.

Capital works include redevelopment of the entrance for level access, small café and ground floor bar. Extension to rear of building for additional access. First floor refurbishment to create learning studios for dance classes, small performances, literary readings. Upgrade to Theatre 2 for live music and plays. Restoration of Crittal windows and exposing dramatic shipyard girders to reveal heritage of the building. Provision of disabled access by lift from foyer to new theatres.

Multi-sensory interpretation works to tell the story of the Strand Theatre, designed to be engaging and accessible to a wide audience with varying abilities and learning styles.

A range of activities during the capital works will include:

- a pop-up cinema in a vacant unit while the building is closed
- development of relationships with regional film clubs
- events with community groups and care homes to collect memories of lost cinema
- touring Pop-up Picture House with heritage theme
- various community workshops
- development of a heritage tour and accompanying hands on projection workshop
- development of STEM education pack including digital

Subsidy control information in relation to grant to The Seachange Trust

Date of grant: 20 September 2023

Reference: NL-23-00009

Grantee: The Seachange Trust

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £1,968,061

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: To enable Out There Arts (The Seachange Trust) to complete the repair, restoration and fit-out of the Ice House as part of a wider package of funding, bringing the building into public use for the first time.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: This project will repair and restore Great Yarmouth's historic Grade II Listed Ice House, the last example of its kind in the UK. The building will become multi-use cultural venue: a centre of excellence for Outdoors Arts and Circus creation, training and delivery, accessible community hub, 650-person event venue and riverside café/bar/terrace space. A Heritage Learning and Creative Community Engagement Programme will be delivered in tandem with the capital works, with particular benefit for the communities surrounding the Ice House.

Subsidy control information in relation to grants to Red Rose Chain

Date of grant: 31 May 2023

Reference: NM-22-01063

Grantee: Red Rose Chain

Category of beneficiary: Small Enterprise

Subsidy amount: £232,882

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Etc Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: The project facilitates free access to heritage and drama workshops for multiple underserved groups that would otherwise struggle to participate.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: This three-year project (September 2023 to August 2026) in Ipswich, Suffolk, uses Anglo-Saxon myths to hold theatre-themed heritage workshops, create new learning and digital resources, and create new professional and community drama productions. Workshops will research, consider and re-interpret Anglo-Saxon myth, with some groups creating community productions. Groups will also contribute to an exhibition and the creation of an online resource about the Anglo-Saxons.

The grantee's regular programme engages young people and people living with disabilities in free theatre workshops (informed by heritage themes and learning). Workshops are also provided for life-prisoners, schools in deprived wards, and asylum seekers.

Subsidy control information in relation to grant to Ironbridge Gorge Museum Trust

Date of grant: 12 May 2023

Reference: NM-22-01000

Grantee: Ironbridge Gorge Museum Trust (IGMT)

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £250,000

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Etc Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: To enable IGMT to increase reach into local communities and build its organisational resilience. This will support them to protect and maintain their portfolio of 49 buildings and structures across the Ironbridge Gorge World Heritage Site.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: IGMT intends to increase its medium to longer term financial resilience by commissioning an external review of its financial model, investing in its fundraising department to increase capacity, and commissioning a segmentation analysis. IGMT also intends to increase reach into local communities by funding a post to develop and implement a strategy for increasing breadth and diversity of audiences.

Subsidy control information in relation to grant to The Judge's Lodging Trust

Date of grant: 10 May 2023

Reference: NM-22-01011

Grantee: The Judge's Lodging Trust Limited

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £164,952

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the

National Heritage Act 1980 and National Lottery Etc Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: To enable the Judge's Lodging Trust to build organisational resilience by developing a secure source of revenue. This will support the Trust to maintain their accredited museum, which is an important tourist attraction in Presteigne, Powys.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened delegated decision panels.

Project summary: The Judge's Lodging Trust is looking to secure its long-term financial resilience by repurposing an unused room in the Judge's Lodging Museum as a holiday let, providing a more secure income stream for the organisation after the loss of guaranteed council funding. The project will also improve access to the museum for disabled visitors by adding a disabled parking space and fitting a new platform lift in the museum.

Subsidy control information in relation to grant to Ironbridge Gorge Museum Trust

Date of grant: 24 January 2023

Reference: NM-22-00712

Grantee: Iron Bridge Gorge Museum Trust

Category of beneficiary: Small to Medium Enterprise

Subsidy amount: £250,000 (Grant awarded)

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Etc Act 1993.

Policy objective: To safeguard nationally important heritage assets within England which were at risk as a direct result of COVID-19.

Purpose of the subsidy: As part of an ongoing package of grant funding, the project will help IGMT move beyond the financial challenges exacerbated by COVID-19 and severe flooding over recent years.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit organisations, or public sector organisations. The heritage asset had to be of outstanding importance to the national heritage and at risk.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: As part of an ongoing package of grant funding, the project will help IGMT move beyond the financial challenges exacerbated by COVID-19 and severe flooding over recent years. Addressing repairs and maintenance in a comprehensive programme will enable the Trust to continue their operation, rather than 'firefighting' and focusing only on overdue urgent repairs or safety issues. This project will support essential maintenance costs focusing on areas of planned and reactive maintenance and salary costs of existing staff. This is time-limited funding on a Full Cost Recovery basis to support the organisation in reaching a more sustainable position (both in terms of organisational capacity and the condition of the heritage assets) following a period of significant challenges.

Subsidy control information in relation to grant to Paxton17 Ltd

Date of grant: 24 January 2023

Reference: NL-21-000140

Grantee: Paxton17 Ltd

Category of beneficiary: Small to Medium Enterprise

Subsidy amount: £2,677,310 (Grant awarded)

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Etc Act 1993.

Policy objective: The Heritage Enterprise programme is designed to support developments that would not attract commercial interest and therefore are not commercially viable. The grant calculation is structured around the conservation deficit to ensure our contribution is targeted and appropriately proportionate to the redevelopment cost.

Purpose of the subsidy: Our grant is a contribution towards the conservation deficit plus activity costs. Proposals include a café and gallery. Our grant will support the redevelopment of the historic buildings into artist studios and through the activity programme will help deliver skills-development opportunities for local communities.

Eligibility for the subsidy: Applicants had to be charities, not-for-profit organisations, or public sector organisations, or for-profit organisation applicants could partner with a not-for-profit body. The heritage asset had to be of outstanding importance to the national heritage and at risk.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: Paxton17 Ltd have received a grant under our Heritage Enterprise programme to restore and redevelop two derelict Grade II* Georgian townhouses and give them a sustainable new use as artist studios. Our grant will support the redevelopment of the historic buildings into artist studios and through the activity programme will help deliver skills-development opportunities for local communities.

Subsidy control information in relation to individual awards, 2022

Subsidy control information in relation to grant to Royal Chelsea Hospital

Date of grant: 16 September 2022

Reference: NL-21-00018

Grantee: Royal Chelsea Hospital

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £3,179,089

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates The National Lottery Heritage Fund) has statutory power to award grants under the National Heritage Act 1980 and National Lottery Etc Act 1993.

Policy objective: National Lottery Grants for Heritage is our open programme for all types of heritage projects in the UK. A funding programme for projects that connect people and communities to UK-wide, regional and local heritage. Made possible thanks to National Lottery players.

Purpose of the subsidy: As part of a site-wide capital scheme outside the scope of this project, the Soane Stables – currently used for storage and unsuitable for public access – will be restored and fitted out as a visitor centre. New interpretation, public engagement opportunities and a programme of activities will promote public enjoyment and public knowledge of the heritage.

Eligibility for the subsidy: The National Lottery Heritage Fund will inspire, lead and resource sustainable, thriving UK heritage. Applicants had to be charities, not-for-profit or public sector organisations.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: The Royal Hospital Chelsea will use the funding over three and a half years (from September 2022 to December 2025), to carry out capital works to refurbish and fit out the Soane Stables. Running alongside, there will be a detailed activity plan to deliver a step-change in the visitor offer. The visitor centre will be available to the public following the project for our remaining contract term.

Subsidy control information in relation to grant to Ironbridge Gorge Museum Trust

Date of grant: 1 February 2022

Reference: MF-21-00078

Grantee: Ironbridge Gorge Museum Trust (IGMT)

Category of beneficiary: Small and Medium Sized Enterprises

Subsidy amount: £9,974,353

Legal basis of subsidy: The Trustees of the National Heritage Memorial Fund (the body corporate which operates the Heritage Fund) has statutory power to award grants under the National Heritage Act 1980.

The Cultural Assets Fund was administered by the Heritage Fund, who distributed grant in aid monies (with funds provided by DCMS as part of the government's wider Culture Recovery Fund) to support any heritage asset which is of outstanding importance to the national heritage and was at risk due to the impact of coronavirus (COVID-19).

Policy objective: To safeguard nationally important heritage assets within England which were at risk as a direct result of COVID-19.

Purpose of the subsidy: To safeguard, through enabling repair and conservation, a portfolio of 49 buildings and structures across the Ironbridge Gorge World Heritage Site, and to provide an endowment to enable the grantee to return to financial viability and operate post-pandemic.

Eligibility for the subsidy: Applicants to the Cultural Assets Fund had to be charities, not-for-profit organisations, or public sector organisations. The heritage asset had to be of outstanding importance to the national heritage and at risk due to the impact of COVID-19.

Basis for subsidy calculation: The project costs as set out in the grantee's application and assessed and verified by Heritage Fund staff and the specially convened recommendation and decision panels.

Project summary: IGMT will use the subsidy funding to address a conservation repair backlog for 49 buildings and structures across the UNESCO World Heritage Site in Shropshire. The project comprises a three-year capital works programme which will enable IGMT to address the most urgent conservation needs which are currently beyond their financial capability and put the Trust back on a stable financial footing to aid recovery post COVID-19. The subsidy also includes £4.5m of endowment funding which will be managed by a professional Investment Management firm to

generate income to fund ongoing conservation maintenance.

Procurement

[See all updates](#)

In accordance with Cabinet Office guidance, we publish information on invitations to tender.

For sub-threshold tenders

As part of our procurement process we publish on [GOV.UK's contract finder service](#). Search "National Heritage Memorial Fund" to find open opportunities.

Public Sector Equality Duty for England, Scotland and Wales

[See all updates](#)

This page details the general equality duty we observe when exercising our public functions in England, Scotland and Wales.

Section 149 of the [Equality Act 2010](#) details the [Public Sector Equality Duty](#) (PSED).

The PSED consists of a general equality duty (the Duty) that requires non-departmental public bodies such as The National Lottery Heritage Fund, when exercising our public functions, to have due regard to:

- eliminating discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Act
- advancing equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it
- fostering good relations between persons who share a relevant protected characteristic and persons who do not share it

Protected characteristics

The protected characteristics are:

- age
- disability
- gender reassignment
- marriage and civil partnership
- pregnancy and maternity
- race
- religion or belief
- sex and sexual orientation

Due regard

To 'have due regard' means that in making decisions and in our other day-to-day activities we must 'consciously consider' the need to:

- remove or minimise disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic
- take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it
- encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low
- tackle prejudice
- promote understanding

Separate Northern Ireland duty

[Northern Ireland](#) is subject to a separate legal regime, known as the [Section 75 duty](#). It requires public authorities to promote equality of opportunity between persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation, men and women generally, persons with a disability and persons without and persons with dependants and persons without. It is also a requirement to submit an Equality Scheme to the NI Equality Commission.

UK and country-specific policy directions

In the distribution of National Lottery money we must also have regard to our policy directions (both UK and nation-specific) which include equality-based requirements such as:

- increase access and participation for those who do not currently benefit from the heritage opportunities available in the United Kingdom
- reduce economic, social and environmental deprivation, ensuring that all areas of the United Kingdom have access to the money distributed

England:

- Have regard to the interests of England as a whole and the interests of different parts of England, taking account of the diverse demographic patterns and economic circumstances in the different parts of England.

Scotland:

- The need to improve community engagement and involvement through projects that promote social inclusion and enhance community engagement and participation.

Wales:

- Have regard to the interests of Wales as a whole and the interests of different parts of Wales, taking account of the diverse demographic and deprivation patterns in the different parts of Wales.

Our commitment

We are committed to building a diverse and valued community of staff, more reflective of the diversity of the UK public, by advancing equality of opportunity and diversity in all aspects of employment.

We embrace and celebrate the differences between people, recognising the value this brings to our working environment and to the services we provide to our customers and stakeholders.

In April 2021 we launched a new Recruitment Framework and Policy that puts our values and behaviours on an equal footing with skills, knowledge and experience, to break down barriers for applicants from under-served backgrounds.

We are a Disability Confident employer, which means we guarantee to interview all disabled applicants who meet the minimum essential criteria for every vacancy.

Find out more about [our commitment to equal opportunities](#) at The Heritage Fund.

Equality Scheme for Northern Ireland

Audit of inequalities	119.88 KB
Disability action plan	128.7 KB

Section 75 of the Northern Ireland Act 1998 (the Act) requires public authorities, in carrying out their functions relating to Northern Ireland (NI), to have due regard to the need to promote equality of opportunity and regard to the desirability of promoting good relations across a range of categories outlined in the Act.

As a commitment under our revised equality scheme we have developed an action plan to promote equality of opportunity and good relations in Northern Ireland. The objective of this audit and action plan is to scan our work and identify any inequalities – continuing or emerging – which our functions and policies could impact on, and equally develop measures which will seek to address any inequalities identified.

Workforce diversity

Workforce Diversity Analysis 2020-2021	133.65 KB
Equality, diversity and inclusion	

Overview

Comparable benchmark data is also shown, based on UK working population levels.

Although we saw increased representation of disability and diverse sexual orientations in the workforce, we recognise that there are still under-represented staff groups. We recognise wider heritage sector trends and barriers to entry that impact on the makeup of our workforce and continue to invest in positive action schemes to help address this, as well as continuing to promote values-based recruitment.

Explore our [Equality, Diversity and Inclusion \(EDI\) Review report](#) to learn more about how we're working towards this.

The Heritage Fund complies with the Equality Act 2010 and our statutory duties under Section 75 of the Northern Ireland Act 1998. We continue to hold the Disability Confident award for recruitment.

The data

The UK Benchmark levels quoted in the below charts are national levels external to the Heritage Fund. Data has been taken from the Government Office of National Statistics and other similar sources.

2023–2024

Ethnic diversity

Ethnically diverse people:

- in our workforce 2023–2024: 9%
- UK benchmark: 18.3%

Gender diversity

Women:

- in our workforce 2023–2024: 74%
- UK benchmark: 47%

Disability diversity

People with disabilities:

- in our workforce 2023–2024: 16%
- UK benchmark: 17.8%

LGBTQ+ diversity

LGBTQ+ people:

- in our workforce 2023–2024: 7%
- UK benchmark: 3.2%

Gender pay gap

28/03/2019

28/03/2019

[See all updates](#)

All organisations with 250 or more employees are required to publish data on their gender pay gap (the difference in hourly pay between male and female employees) each year.

[Equality, diversity and inclusion](#)

[Gender pay gap report 2024–2025](#)

[Gender pay gap report 2023–2024](#)

[Gender pay gap report 2022–2023](#)

[Gender pay gap report 2021–2022](#)

[Gender pay gap report 2020–2021](#)

[Gender pay gap report 2019–2020](#)

Like most public bodies, our 2024 gender pay gap is calculated from data taken at the snapshot date of 31 March 2024 and is reported by 30 March 2025.

At the Heritage Fund, we're committed to progressing equality, diversity and inclusion within the organisation. Our gender pay analysis is important to us and we use the services of an external

specialist, Brightmine (formerly XpertHR), to support us.

The gender pay gap is the difference in pay between all men and women in a workforce. This is not the same as equal pay, which refers to pay differences between men and women doing the same job or work of equal value. The Heritage Fund uses a robust pay range framework to ensure men and women are paid at the same pay range for the same work.

You can download reports going back to 2019–2020 from this page.

Our 2024 gender pay gap

Our gender pay gap is calculated from hourly pay data taken at the snapshot date (31 March 2024).

- Our median gender pay gap is 4.18%, a slight increase from 1.80% in 2023.
- The mean gender pay gap is 8.93%, a slight increase from 6.88% in 2023.

As we are a workforce of around 350 people, changes including new starters and leavers will have more of an impact than you might see in a larger organisation. This means we would expect to see slight fluctuations in our gender pay gap year to year and our overall trend still shows this is decreasing (see below).

Our gender pay gap over time

Year	Heritage Fund gender pay gap	
	Median gender pay gap	Mean gender pay gap
2019	17.4%	19.0%
2020	12.1%	11.5%
2021	13.1%	13.7%
2022	8.45%	12.2%
2023	1.8%	6.88%
2024	4.18%	8.93%

Our bonus gap

Under the Heritage Fund's bonus scheme, all staff eligible to receive the full bonus receive the same payment regardless of their pay range. There is no differentiation of payments to men and women who receive the full award. Our bonus pay gap is 3.24% for women less than men, a slight increase from 3.18% in 2023/24. This is due to pro rata payments for new starters and situations where zero bonus is paid to ineligible staff. 77% of women received a bonus in 2024/25 compared to 78% of men.

Further data

More detail on our 2024 gender pay gap analysis can be found in the PDF report on this page.

Key details of our gender pay gap can be accessed [on the Gender Pay Gap Service website](#).

Trade Union Facility Time

22/07/2025

22/07/2025

[See all updates](#)

We recognise the value of Trade Union representatives and provide PCS and FDA trade unions with reasonable levels of facility time and resources to enable them to carry out their union duties and activities.

All Trade Union representatives play certain roles in the workplace and have a statutory right for reasonable paid time off during normal working hours to complete union duties. This is according to their Trade Union role and to undertake Trade Union activities.

Under this statutory instrument, we are required to disclose information about trade union facility time and relevant employee expenditure. This information covers both our grant in aid and National Lottery distribution activities.

Your organisation

The Trustees of National Heritage Memorial Fund – 1 April 2024 to 31 March 2025

Employees in your organisation

50 to 1,500 employees

Trade union representatives and full-time equivalents

- Trade union representatives: 18
- FTE trade union representatives: 17.63

Percentage of working hours spent on facility time

- 0% of working hours: 2 representatives
- 1 to 50% of working hours: 16 representatives
- 51 to 99% of working hours: 0 representatives
- 100% of working hours: 0 representatives

Total pay bill and facility time costs

- Total pay bill: £19,629,146.28
- Total cost of facility time: £22,555.65
- Percentage of pay spent on facility time: 0.11%

Paid trade union activities

- Hours spent on paid facility time: 842.5
- Hours spent on paid trade union activities: 155.5
- Percentage of total paid facility time hours spent on paid TU activities: 18.46%

Freedom of Information requests

[See all updates](#)

If there is specific information not covered on our website that you would like to view or access you can make a Freedom of Information (FOI) request.

How to request information from us

The Freedom of Information Act (FOIA) gives you the right to see recorded information we hold.

Some of the information we hold is already available publicly. Before you make a request for information you should:

- search our website for the information
- check our [publication scheme](#)

If you would like to make a request, please email foi@heritagefund.org.uk

Your request must state your full name. Please provide as much detail as you can about the information that you are looking for. We will acknowledge your request and must reply in full within 20 working days.

If you have requested information that relates to a third party, we may need to consult with such parties in order to reach a view on whether the information can be released. When consulting with third parties the identity of the requestor will remain confidential and will not be disclosed.

Freedom of Information disclosure log

08/06/2020

08/06/2020

[See all updates](#)

This list contains every Freedom of Information request The National Lottery Heritage Fund received between 1 April 2023 and 31 March 2024.

FOIA is used in place of Freedom of Information Act throughout.

April 2023

- Requester sought information on grants awarded to regimental museums. This information was provided.
- Requester sought information on Sherborne House project applications. Part of this information was provided with some information redacted under section 40 of FOIA. The Heritage Fund did not hold information on the 1996, 1997 or 2003 applications and this part of the request was a nil return.
- Requester sought information on grants awarded for Eat for England. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on Lady Victoria Colliery. This information was provided.
- Requester sought information on procurement scoring. This information was provided.
- Requester sought information on the Ashton Court Estate restoration project. Information on the Final Payment and Completion Report was provided with some information redacted under section 40 of FOIA.
- Requester sought information on Natur Cleddau Community Garden correspondence. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Bogside – The Crucible of the Peace Process project. This request was refused under section 12 of FOIA.
- Requester sought information on Wyndham Park, Grantham. This information was provided.
- Requester sought information on cloud infrastructure. This information was provided.
- Requester sought information on temporary labour usage. This information was provided.

May 2023

- Requester sought information on the Transforming Tate Britain: Building, Archives, Access project. Information on applications, progress reports and final completion reports was provided with some information redacted under section 40 and section 43(2) of FOIA.
- Requester sought information on grants awarded to Averham school. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on Lady Victoria Colliery. This information was provided.
- Requester sought information on wellbeing and pavilion projects. This information was provided.
- Requester sought information on the Foresters' Forest project. Information on the application form, correspondence and evaluation report was provided with some information redacted under section 40 of FOIA.
- Requester sought information on payments made to The Bogside – The Crucible of the Peace Process project. This information was provided.
- Requester sought information on The Bogside – The Crucible of the Peace Process project correspondence from 2017 to 2022. These requests were refused under section 12 of FOIA.
- Requester sought information on The Bogside – The Crucible of the Peace Process project communication. This information was provided.

- Requester sought information on funding in Westmorland and Furness local authority. This information was provided.

June 2023

- Requester sought information on application documents. Information on application questions and guidance for applications was provided.
- Requester sought information on the acquisition of Portrait of Omai. The funding agreement was provided with some information redacted under section 40 and section 41 of FOIA. Information on the loan programme schedule was withheld under section 22 of FOIA. Information on valuation reports was not held and this part of the request was a nil return.
- Requester sought information on the Music Heritage Trail project. The application form was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Untold Stories Edmonton project. The application form was provided with some information redacted under section 40 of FOIA.
- Requester sought information on Lavant Church applications. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Rediscovering the Antonine Wall project. The completion and evaluation reports were provided with some information redacted under section 40 of FOIA.

July 2023

- Requester sought information on Lon Las Ogwen projects. This information was provided.
- Requester sought information on The Heritage Fund's IT contracts. This information was provided.
- Requester sought information on grants awarded to East Riding of Yorkshire Council's Museum Service. This information was provided.
- Requester sought information on the Abney Park Restoration project funding decision. This information was provided.
- Requester sought information on emails between The Heritage Fund and a Freedom of Information requester. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on Customer Relationship Management software. This information was provided.
- Requester sought information on The Heritage Fund's late invoices. This request was refused under section 12 of FOIA.
- Requester sought information on The Memorial Fund's late invoices. This request was refused under section 12 of FOIA.
- Requester sought information on The Heritage Fund's IT devices and procurement. This information was provided.
- Requester sought information on the feasibility study for the Resilient Heritage funded project at Ushaw College. This information was provided with some information redacted under section 40 of FOIA.

- Requester sought information on multi-functional device contracts. This information was provided.
- Requester sought information on grant awards data. This information was provided.

August 2023

- Requester sought information on the Ubele Initiative's 81 Acts of Exuberant Defiance project. The grant notification letter, case paper and decision meeting information were provided with some information redacted under section 40 of FOIA.
- Requester sought information on funding awarded to Shire Hall, Haverfordwest. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on grants awarded to RSPB. Part of this information was provided. The Heritage Fund did not hold any relevant information on joint funding to United Utilities, and this part of the request was a nil return.
- Requester sought information on applications made by the Gurdwara Guru Hargobind Sahib Ji. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Kelvin Launch Restoration project. The application form was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the retendering of the Register of Support Services Framework Agreement. Part of this information was provided. The Heritage Fund did not hold any relevant information on previous employees invited to tender, and this part of the request was a nil return.
- Requester sought information on a number of projects. Project documents were provided with some information redacted under section 40 of FOIA. Part of the accounts information was accessible elsewhere and exempt under section 21.
- Requester sought information on Heritage Fund employees working from abroad. Part of this information was provided. Information on pay bands, countries worked from and dates was withheld under section 40 of FOIA.
- Requester sought information on transactions over £25,000. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on grants awarded since January 2020. Part of this information was provided. Under section 16 of FOIA, advice and assistance was also provided.

September 2023

- Requester sought information on the restoration of Staveley Hall and Stables. Project documents were provided with some information redacted under section 40 of FOIA.
- Requester sought information on data protection compliance. This information was provided.
- Requester sought information on the Abney Park project funding decision. This information was provided.
- Requester sought information on The Heritage Fund's energy usage. This information was provided.

October 2023

- Requester sought information on correspondence about the Blake Cottage Trust. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on The Heritage Fund's finance systems. This information was provided.
- Requester sought information on The Heritage Fund's annual reports. This information was provided.
- Requester sought information on late invoices. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on transparency reports. This information was provided.
- Requester sought information on Project Torgoch. This information was provided.
- Requester sought information on the Eden River Trust project. The application form and award letter were provided with some information redacted under section 40 of FOIA.

November 2023

- Requester sought information on correspondence about Decimus Burton Museum. Part of this information was provided with some information redacted under section 40 of FOIA. The Heritage Fund did not hold information on correspondence with Tunbridge Wells Borough Council and this part of the request was a nil return.
- Requester sought information on the Swiss Garden, Shuttleworth Estate project. The application form and award letters were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the DigVentures Leiston Abbey project. The evaluation report was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the National Civil War Centre project funding decision. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Champion Sound documentary. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on several project applications and decisions. Part of this information was provided with some information redacted under section 40 of FOIA. Staff salary and CV information was withheld in full under section 40. Part of the accounts information was accessible elsewhere and exempt under section 21.
- Requester sought information on correspondence between The Heritage Fund and Tunbridge Wells Borough Council about Decimus Burton Museum. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on the Great Places funding methodology. This information was provided.
- Requester sought information on an application made by Cornwall Heritage Trust. This information was provided with some information redacted under section 40 of FOIA.
- Requester sought information on grants awarded to projects in Hyndburn. This information was provided.

December 2023

- Requester sought information on the blood, sweat and tears of the first generation of Brummie Mirpuri's project. This information was provided.
- Requester sought information on FOI and subject access request statistics. This information was provided.
- Requester sought information on translation, interpretation and language services expenditure. This information was provided.

January 2024

- Requester sought information on the RoSS Framework Agreement tender exercise. Part of this information was provided with information on selection committee members withheld under section 40 of FOIA.
- Requester sought information on the Spirit of the Leas project. The application form and decision information were provided with some information redacted under section 40 of FOIA. The Heritage Fund did not hold supporting application information and this part of the request was a nil return.
- Requester sought information on public access rights for Moggerhanger Park. Information from the project contracts was provided.
- Requester sought information on Rothbury Golf Club. The Heritage Fund did not hold any relevant information, and this was a nil return.

February 2024

- Requester sought information on funding provided to Stonewall. This information was provided.
- Requester sought information on The Friends of Highgate Cemetery. Expressions of interest, applications and correspondence was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Devonshire Dome, Buxton. Information on the project contract and funding was provided.
- Requester sought information on Glasgow Women's Library. Information on funding and monitoring was provided.
- Requester sought information on sea water baths, lidos and pools project. Application information was provided with some information redacted under section 40 and section 43(2) of FOIA.
- Requester sought information on the Small Mansion and stables at Gunnersbury Park. The expression of interest and feedback was provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Land of the Fanns project. A project map was provided. The Heritage Fund did not hold information on building permissions and this part of the request was a nil return.
- Requester sought information on the RoSS Framework Agreement tender exercise. This information was provided.
- Requester sought further information on the RoSS Framework Agreement tender exercise. This information was provided.

- Requester sought information on projects marking the bicentenary of the abolition of the slave trade. Information on grant awards was provided. The Heritage Fund did not hold information on the original report data.
- Requester sought information on The Place That Made the Weather: Joseph Chamberlain's Highbury project. The application forms, development round completion report and evaluation were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the From The Slave Ship To The Spaceship project. The application form and case paper were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Our Birmingham Stories project. The application form, case paper and decision letter were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Everything to Everybody project. The application forms, development round completion report and evaluation were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the From City Of Empire To City Of Diversity: A Visual Journey project. The application form and completion report were provided with some information redacted under section 40 and section 43(2) of FOIA.
- Requester sought information on Caroline Gardens Chapel. This request was refused under section 12 of FOIA.
- Requester sought information on unconscious bias training. This information was provided.
- Requester sought information on The Road To Freedom: Ending Slavery in Britain project. The application form was provided with some information redacted under section 40 of FOIA.

March 2024

- Requester sought information on the National Lottery Heritage Fund's contact information. This information was provided.
- Requester sought information on the University of Birmingham for redevelopment of Lapworth Museum of Geology project. The application forms, completion reports and evaluation were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Three Continents, One History: Birmingham: The Transatlantic slave trade and the Caribbean project. The application form and completion report were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Connecting Histories project. The application form and completion report were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Children's Lives project. The application form, completion report and evaluation were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the repair and restoration of St. Mary's Church, Conwy project. The application forms were provided with some information redacted under section 40 of FOIA.
- Requester sought information on the Seeking the Pioneers: The Race History Detectives project. The application form was provided with some information redacted under section 40 of FOIA.
- Requester sought information on Creative Scotland. The Heritage Fund did not hold any relevant information, and this was a nil return.

- Requester sought information on The Heritage Fund's staff networks. This information was provided.
- Requester sought information on funding received from the government by the National Heritage Memorial Fund. This information was provided.
- Requester sought information on funding received from the government by the Heritage Fund. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on the opening of the International Slavery Museum. The application form and completion report were provided with some information redacted under section 40 of FOIA.
- Requester sought information on any grant awards to Fakenham Town Band. The Heritage Fund did not hold any relevant information, and this was a nil return.
- Requester sought information on the Moggerhanger House Preservation Trust. The application forms were provided with some information redacted under section 40 of FOIA. Monitoring information was also provided.
