

Landscapes, parks and nature

Looking after nature and helping people to understand its importance has never been more vital.

Since 1994 we have awarded over **£2.2billion** of National Lottery and other funding to 5,100 land, nature and biodiversity projects across the UK.

Protecting the environment is one of our four Heritage 2033 [investment principles](#). Our vision is for heritage to be valued, cared for and sustained for everyone, now and in the future.

We are prioritising landscape and nature projects that:

- support nature's recovery
- deliver nature-based solutions to address climate change

- reconnect people to landscapes, marine environments and nature

The climate crisis

The heritage sector has an important role to play in reducing greenhouse gas emissions and tackling climate change. Find out more about what we're doing to [tackle the climate crisis](#).

What we expect from projects we fund

We want **all kinds of heritage project**, large and small, to:

- limit any potential damage on the environment
- make a positive impact on the environment and particularly for nature

Read our [environmental sustainability guidance](#).

How to get funding

Our National Lottery Heritage Grants funding programme is open, providing grants from £10,000 up to £10million.

Gardens and cemeteries

The UK is world renowned for its wealth of historic designed parks, gardens and cemeteries. Here's how our funding can help look after them.
