

Application questions and help notes: National Lottery Grants for Heritage

30/01/2019

Page last updated: 10 February 2022

In June 2021 we launched our new [Get funding for a heritage project](#) service. Application questions for National Lottery Grants for Heritage funding have changed as part of this.

For grants between £3,000 and £250,000, help notes were tailored towards our old application portal and have been removed. In our new service, this guidance can be found whilst completing the application form.

Application questions and help notes for grants between £250,000 and £5million are available on this page.

The attachments include:

- the help notes tailored to the old system, which include information explaining what we're looking for in answers to certain questions
- additional help notes showing how the questions on the old form translate to the new system

Please use our [feedback form](#) if you have any questions about this.

If you require a Welsh version of this guidance, please get in touch either via email at wales@heritagefund.org.uk or phone on 029 2034 3413.
