

The D.H. Lawrence Heritage Centre

As part of the project, D.H Lawrence Heritage will launch a digital giving webpage to encourage donations from local and national businesses to help the site in organising and delivering a variety of community events focusing on local history and heritage.

The digital giving portal will be compatible with mobile devices as well as desktop computers and donations will help fund a programme of innovative community events that will celebrate local history and heritage.

Broxtowe Borough Council Cabinet Member for Arts, Leisure and Culture, Councillor Ian Tyler said: “This is a fantastic project that will help ensure that the Heritage Centre and Birthplace Museum can diversify its income to continue to offer quality community events with real benefit for the local area. The D.H. Lawrence Heritage team work extremely hard and we are delighted the Heritage Lottery Fund have awarded them this funding.”
