

Vital £2.1m for South East's most important places of worship

28/02/2012

The money comes from the Repair Grants for Places of Worship scheme*, which is funded by HLF and administered by English Heritage.

Across Buckinghamshire, East and West Sussex, Hampshire, Kent, Oxfordshire and the Isle of Wight these vital grants will help repair places of worship at risk including Church of St Dunstan in Cranbrook, Kent and Church of St Britius in Brize Norton, Oxfordshire.

Stuart McLeod, Head of HLF in the South East, said: “Historic places of worship are an irreplaceable part of our heritage that continues to play a vital role within local communities today. In the last ten years, the Heritage Lottery Fund has invested £155million into these wonderful buildings and I am delighted we are able to continue supporting congregations across the South East to safeguard them for future generations.”

Dr Andy Brown, English Heritage Planning Director for the South East, said: “We are delighted that these important buildings will benefit from HLF funding and English Heritage’s expert advice. We know that maintaining places of worship and developing them sensitively is a major challenge and we are glad to work with the inspiring volunteers who make repairs and enhancements happen. Such fine buildings are a great resource, as places of spiritual discovery, landmarks, events venues, places of solace and architectural treasures. These grants celebrate both what they are and can be, whilst supporting the people who care for them on behalf of us all.”

Church of St Dunstan, Cranbrook, Kent

Grant: £71,000

The Grade I listed Church of St Dunstan dates back to the 12th century, with additions from the 16th and 19th centuries. Due to its scale and grandeur it is known as the ‘Cathedral of the Weald’. A grant of £71,000 will enable works to repair tower masonry, including access work, turret roof repairs and lightning protection.

Church of St Britius, Brize Norton, Oxfordshire

Grant: £113,000

The Grade II* listed Church of St Britius has Norman origins with 13th century enlargements and extensive restoration works carried out in the 19th century. Works will include renewing stone slate roof coverings to the nave and south porch along with reroofing.

Notes to editors

*The Repair Grants for Places of Worship in England Scheme is funded by the Heritage Lottery Fund (HLF) and administered by English Heritage on behalf of both organisations.

Until 2010, the scheme was jointly funded by HLF and EH. Since then, HLF has provided the majority of the funding to ensure that the scheme continues in its current form until 2013.

Listed places of worship in England of all denominations and faiths are eligible for grants which support urgent repairs to the fabric of the building with a focus on projects costing less than £250,000. There is a

two-stage application process with development funding available at stage one to help work up proposals.

To be eligible for the next round of funding, applicants need to apply by 30th June for Grade I and II* and 30th September for Grade II listed places of worship. www.english-heritage.org.uk

English Heritage is the Government's statutory advisor on the historic environment. It provides advice on how best to conserve England's heritage for the benefit of everyone. While most of England's heritage is in private hands, it works with all who come into contact with it - landowners, businesses, planners and developers, national, regional and local government, the Third Sector, local communities and the general public - to help them understand, value, care for and enjoy England's historic environment.

It is also entrusted with the custodianship of over 400 sites and monuments which together form the national collection of built and archaeological heritage. These include some of the most important monuments of human history such as Stonehenge and Hadrian's Wall.
