

**Elis James:**

Hello! I'm Elis James  
Comedian, raconteur, vibe magnet.

Welcome to my gaff, come on in.  
I'll show you around.

This part of the castle keep is over 900 years old,  
and I often like to come here and just go on my phone.

Just a tip, if you're going to paint a space this big  
do get a quote because it absolutely crippled me.  
150 years ago people would come into this room  
They'd have a smoke, they'd have a drink  
And they'd just stare into the tiles.  
Thank god we invented telly.

My Dad's still got that cloak.

Welcome to the guest room!  
I like to invite friends round one at a time.

Historically I tend to make new friends about once every ten years  
So in three years time...

I've got to be honest,  
I think that is too many flags

A lot of people want to talk to me about the disadvantages of owning a castle,  
But what people don't want to talk about is the positives.

I've got access to off-street parking which makes my car cheaper to insure.

That cafe over there?  
That means I've got access to panini 8 hours a day, 7 days a week  
excluding bank holidays.

And there's loads of these, and they're massive  
Which means I empty my bins every 6 months.
