| 1.  | St. Andrew's window, nave and transept project | <p>This project is the continuation of the work from the previous successful application for funding granted in 2012/ The aim is to complete the task of window replacement in this Grade 1 listed church, one notable feature being the early English/normal slab clear glazed windows, now bowed outwards and in an urgent and dangerous state. The project will also involve urgent work required to the church nave and transepts. This includes replacement of RWP's repairs to north parapets, installation of ladder for roof access from the tower window, replace duckboards and gullies for surface water drainage and polycarbonate replacement to Lady Chapel stained glass.</p> <p>The urgent need to carry out the works as identified has been confirmed and the church remains in a poor condition. The project will remove the church from the Heritage at Risk register.</p> | St Andrew's Church, Roker | Award Grant of £125,500 (77%) |
